The Principal Secretary Rajbhavan, Bihar, Patna.

Sub.- Regarding submission of proposed course structure and uniform syllabus ofGEOLOGY for 1st and 2nd Semester of 4-Year undergraduate.

Ref.- Letter No.-BSU(UGC)-02/2023-871/GS(I), Dated-09-06-2023 Sir.

In Compliance with your letter no.-BSU(UGC)-02/2023-871/GS(I), dated 09-06-2023 followed by above mentioned letter no, we are submitting proposed course structure and syllabus the of GEOLOGY for 1^{st} and 2^{nd} semester of the 4 year under graduate course system as per UGC regulations.

Yours faithfully,

Enclosed-as above.

SEMESTER – I

MJC1 : FUNDAMENTALS OF THE EARTH SYSTEM

Course Objective

- To provide comprehensive understanding of the Earth as a planetary body
- To describe plate tectonics, earthquakes and volcanoes.
- To give the concept of the Earth surface processes.

Unit	(Credit: 4) Topics to be covered	No. of Lectures
1	Aim, applications and various branches of Geology Solar system; Brief idea about Meteorites; Origin of the Earth Earth - important physical parameters; Brief idea of – Atmosphere, Hydrosphere, Lithosphere and Biosphere	10
2	Basic idea about minerals and rocks. Age of the Earth Geological Time Scale; Floral and Faunal succession Concept of Stratification, Bedding	10
3	Internal structure of the Earth Concept of Plate tectonics. Earthquakes – types, causes and effects Volcanoes – types and products.	10
4	Surface processes: Weathering – <i>physical, chemical, biological</i> ; Erosion Concept of Rock cycle Soil: processes of formation, soil profile and types	08
5.	Fundamental concepts of Geomorphology Endogenic and Exogenic geomorphic processes Brief idea of evolution of various landforms – <i>Glacial, Fluvial, Karst, Eolian</i> Physiographic division of India	10
	TOTAL	48

MJC1 Practical: FUNDAMENTALS OF THE EARTH SYSTEM (Credit: 2)

Practical

- 1. Study of topographic maps
- 2. Study of contour patterns
- 3. Study of Seismic zones of India
- 4. Physiographic division of India Mountains, Hills, Plateaus, Rivers, Lakes
- 5. Drawing of Soil profile
- 6. Geological Time Scale

14.6.23

Rebindre Kumor. 14:06.2022.

are Souph . 14.6.23

- Gain comprehensive understanding of the Earth as a planetary body.
- Explain mechanism of plate tectonics, earthquake & volcanoes.
- Analyze the Earth's surface processes.

Suggested Reading:

- 1. Duff, P. M. D., & Duff, D. (Eds.). (1993). Holmes' principles of physical geology. Taylor & Francis
- 2. Dutta, A.K. : An Introduction to Physical Geology
- 3. Emiliani, C. (1992). Planet earth: cosmology, geology, and the evolution of life and environment. Cambridge University Press.
- 4. Gross, M. G. (1977). Oceanography: A view of the earth
- 5. Holmes, A.: Principles of Physical Geology.
- 6. Longwell and Flint : Introduction to Physical Geology
- 7. Petrie, N., Analysis and interpretation of topographic maps, (Orient Blackswan)
- 8. Sen, A. K., Laboratory Manuals of Geology (Lovely Prakashan)
- 9. Singh, S. : Physical Geography
- 10. Singh, Praveen : Textbook of Engineering and General Geology
- 11. Siddarth, K. : Earth's Dynamic Surface
- 12. Thornbury W.D.2004. Principles of Geomorphology Second Edition Paperback 1 January CBS publishers.

The question paper pattern shall consist of three parts -

Part A - Compulsory - consisting of Objective/ Multiple Choice type -	
each carrying two marks	$10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions - $04 \ge 5 = 20$ marks each carrying five marks
- Part C Long Answer Type Three questions to be answered out of five questions - $03 \ge 10 = 30$ marks each carrying ten marks

SEMESTER - 2

MJC2 : MINERALOGY, CRYSTALLOGRAPHY and OPTICAL MINERALOGY

Course Objective:

• To introduce the branch of mineralogy

- To provide understanding of crystal, crystal structure and crystal systems
- To describe mineral groups
- To provide insights of physical and optical properties of minerals

Unit	Topics to be covered	No. of Lectures
1	 Mineral - definition; Rock forming minerals and Ore minerals. Ionic radii, Ionic substitution & Co-ordination number. Isomorphism, Polymorphism, Pseudomorphism. Physical properties of minerals: Form, Color, Streak, Lustre, Cleavage, Fracture, Hardness, Specific gravity, Tenacity, Magnetic properties, Electrical properties. 	08
2	Chemical classification of minerals – native elements, sulphides, oxides and hydroxides, halites, carbonates, sulphates, phosphates and silicates Study of the following minerals: Pyrite, Galena, Chalcopyrite, Corundum, Chromite, Haematite, Magnetite, Kyanite, Bauxite, Talc, Fluorite, Calcite, Gypsum, Barite, Apatite.	10
3.	Silicate structure and its classification. Detailed study of the following rock forming mineral groups with reference to Structure, Composition, Classification, Physical and Optical properties and Paragenesis: Olivine, Pyroxene, Amphibole, Mica, Feldspar, Silica polymorphs	10
4.	Introduction to Crystallography - Crystal form, Face, Edge, Solid angle, Interfacial angle, Crystallographic axis, Unit cell and Bravais lattice. Introduction to crystal parameters and symmetry elements, Laws of Crystallography. Fundamental idea of crystal systems. Detailed study of the following crystal systems: Isometric, Tetragonal, Hexagonal	10
5.	 Propagation of light through minerals, Polarization, Double refraction, Isotropism and Anisotropism Construction of Nicol prism; Petrological Microscope and its function, Optical accessories Important optical properties: <i>Refractive index, Pleochroism, Pleochroic haloes, Interference colour, Extinction and extinction angle, Birefringence, Optic sign</i> 	10
	TOTAL	48

Messin. 14.6.23

MJC2 Practical: MINERALOGY, CRYSTALLOGRAPHY and OPTICAL MINERALOGY (Credit: 2)

Practical

- Clinographic Projection of : Cube, Octahedron, Rhombdodecahedron and Tetrahedron (+ve and -ve) 1st and 2nd order Prism with Basal pinacoids, 1st and 2nd order Pyramids, Zircon
- 2. Stereographic projection of Zircon and Vesuvianite
- 3. Megascopic Study of the following minerals:
 - a. Non-silicates: Calcite, Gypsum, Talc, Fluorite, Apatite, Topaz, Corundum, Baryte, Kyanite, Haematite, Galena, Bauxite, Psilomelane, Garnet, Nepheline, Beryl, Andalusite, Sillimanite, Tourmaline, Magnetite, Pyrite, Chromite, Pyrolusite.
 - b. Silicates: Quartz, Orthoclase, Microcline, Plagioclase, Muscovite, Biotite, Hornblende, Tremolite, Actinolite, Hypersthene, Olivine

4. Microscopic study of the following minerals:

Olivine, Augite, Hypersthene, Hornblende, Muscovite, Biotite, Microcline, Plagioclase, Quartz

Course Outcome

- Gain basic knowledge of minerals and their properties
- Comprehend different mineral groups.
- Understand crystals and their properties.
- Comprehend the basics of Optics and its behavior within minerals.
- Understand classification of silicate mineral groups.

Suggested Reading:

The Principal to Secretary, Raj Bhavan, Patna

Sub:-Regarding submission of proposed draft copy of course structure and uniform syllabus of Geology for 3rd to 8th Semester of 4-Year undergraduate Course under CBCS System.

Reference:- Letter No.- BSU(UGC)- 02/2023-1457/ GS(I) dated-14.09.2023 of Raj Bhavan, Patna, Patna Univ. Letter No. Acad/416/AKS/1398, dated-16.09.2023 and BNMU-Memo no (Admin-comp-Raj Bhav.-04/22)-1017/23, dated-15.09.2023.

Sir,

In Compliance with your letter no. BSU(UGC)- 02/2023-1457/ GS(I) dated-14.09.2023 of Raj Bhavan, Patna, Patna Univ. Letter No. Acad/416/AKS/1398, dated-16.09.2023 and BNMU-Memo no (Admin-comp-Raj Bhav.-04/22)-1017/23, dated- 15.09.2023, we have prepared the Course Structure and uniform syllabus for 4 year undergraduate programme under CBCS System for **Geology** subject in Major, Minor and Multidisciplinary courses for 3rd to 8th Semester.

We are submitting the proposed course structure and syllabus of **Geology** for 3^{rd} to 8^{th} Semester as per UGC regulations.

Thanks & Regards,

Enclosed:-as above.

Dr. Atul Aditya Pandev

Subject Expert Professor (Geology) Patna University, Patna Yours faithfully

Dr. Ashok Kumar Singh Subject Expert Associate Professor (Geology) Head, P.G. Dept. of Geology, BNMU Madhepura

Shekhar Subject Expert Assistant Professor (Geology) Patna Science College, Patna

SEMESTER - III

MJC3 : STRUCTURAL GEOLOGY

Course Objective

- 1. To educate the students about the concept of rock deformation.
- 2. To understand qualitative aspects of brittle and ductile deformation processes.
- 3. To impart knowledge about folds, faults, joints, unconformity.

	MJC3 : STRUCTURAL GEOLOGY (Credit: 3)	
Unit	Topics to be covered	No. of Lectures
1	Elementary idea of structural geology	08
	Concept of Stress and Strain, Stress and Strain ellipsoid Ductile vs. Brittle deformation	
2	Lineation, Foliation, Cleavage. Outcrops and outcrop patterns	12
	Attitude of beds, Dip and Strike	
	Clinometer and Brunton compass and its Uses	
	Outliers and inliers	
	Joint - definition and types	
	Unconformity- definition, types and geological significance	
3	Fold – definition, causes and mechanism of Folding	08
	Classification of Folds	
	Recognition and significance of Fold	
4	Fault - definition, causes and mechanism of Faulting	08
	Classification of Fault	
	Recognition and significance of Fault	
	TOTAL	36

MJC3 Practical: STRUCTURAL GEOLOGY (Credit: 2)

Practical

- 1. Study of geological maps.
- 2. Drawing of geological section and description of geological history of the area.
- 3. Plotting of Dip and Strike on stereo-net.
- 4. Structural problems.

Course Outcome

- Gain knowledge of factors responsible for generating structural features of rocks.
- Analyse the concept of stress and strain.
- · Explain the concept and mechanism of folds, faults, joints and unconformity

arennen 2019

Suggested Reading:

- 1. Billings, M. P. (1987) Structural Geology, 4th edition, Prentice-Hall
- 2. Davis, G. R. (1984) Structural Geology of Rocks and Region. John Wiley
- 3. Hills, E.S., (1963) Elements of Structural Geology. Farrold and sons, London.
- 4. Lahee F. H. (1962) Field Geology. McGraw Hill
- 5. Park, R. G. (2004) Foundations of Structural Geology. Chapman & Hall.
- 6. Pollard, D. D. (2005) Fundamental of Structural Geology. Cambridge University Press.
- 7. Ragan, D. M. (2009) Structural Geology: an introduction to geometrical techniques (4th Ed). Cambridge University Press (For Practical)
- 8. Ramsay, J.G. (1967) Folding and fracturing of rocks. Mcgraw-Hill, New York

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

aresigh 2019/23

GEOLOGY

Four Year Undergraduate Program under CBCS

SEMESTER – III

MJC 4: GLOBAL TECTONICS AND GEODYNAMICS

Course Objective

- To train the students about the endogenic forces of the earth.
- To train the student about dynamism of the earth.

MJC4 : GLOBAL TECTONICS AND GEODYNAMICS (Credit: 4)		
Unit	Topics to be covered	No. of Lecture
1	Concept of Diastrophism, Orogeny and Epirogeny Isostasy: Airy's and Pratt's Hypothesis	08
	Mountains – types, geological character and origin	
2	Continental Drift : <i>Wegner's Hypothesis</i> Evidences of Continental Drift Concept of sea floor spreading – evidences and mechanism	08
3	Brief idea of the following: Paleomagnetism, Palaeoclimate, Mid-oceanic ridge, Polar wandering, Island arcs, Rift Valley	10
4	Concept of Plate tectonics. Types of Plate boundary: Convergent, Divergent and Conservative boundaries, Subduction zone, Transform fault Structure and evolution of Himalayas.	10
5	Geodesy – Introduction, techniques of measuring active deformation. Neotectonics and geological phenomenon Neotectonic activities in Indogangetic plain and in Himalayas.	10
	TOTAL	48

Course Outcome

- · Understand the basic components Geodesy.
- Explain the tectonic features of the earth.

Suggested Reading:

- 1. Badgley, P. C., (1965). Structural and Tectonic Principles, Harper & Row.
- 2. Beloussov, V.V., (1980). Geotectonics, Springer-Verlag Berlin Heinemann

MJC5 : IGNEOUS PETROLOGY

Course Objective

- To impart knowledge about the magmatic systems and igneous rocks
- To train the students to classify an igneous rock.

MJC5 : IGNEOUS PETROLOGY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	Introduction to Petrology - <i>distinguishing features of three types of rocks</i> . Magma – definition, physical and chemical properties, primary magma	06
2	Forms and Structure of Igneous rock Texture of Igneous rock Generation and crystallization of Magma Plate tectonics and Magmatism	08
3	 Bowen's Reaction series: Discontinuous and Continuous series Processes of Diversification of Igneous rocks: Fractional crystallization, Gravitational segregation, Thermo- gravitational diffusion, Filter pressing, Liquid immiscibility, Assimilation & Magma mixing Introduction to Phase rule; Study of the following Phase diagrams: Binary: An-Di, Ab-An; Ternary: Ab-An-Di 	12
4	Different schemes of classification of Igneous rock. Petrographic description of the following rock types : Granite, Rhyolite, Syenite, Nepheline-syenite, Monzonite, Diorite, Anorthosite, Gabbro, Dolerite, Basalt, Peridotite, Pyroxenite, Dunite, Trachyte and Andesite.	10
	TOTAL	36

MJC3 Practical: IGNEOUS PETROLOGY (Credit: 2)

Practical

- 1. Megascopic study of the following rocks: Granite, Syenite, Pegmatite, Diorite, Gabbro, Dolerite, Basalt, Rhyolite, Dunite, Trachyte, Obsidian, Pumice, Peridotite, Pyroxenite, Anorthosite, Norite
- Microscopic study of the following rocks: Granite, Syenite, Nepheline-syenite, Granodiorite, Diorite, Gabbro, Dolerite, Basalt, Peridotite, Anorthosite.
 Columbra Computer
- 3. Calculation of CIPW norm.

923

alesy

- Understand the concept of different rock types.
- Know the factors and processes of magma generation.
- Comprehend various classifications of igneous rocks.
- Explain the factors responsible for diversity of igneous rocks.
- Understand the basics of phase-equilibria.

Suggested Reading:

- 1. Huang : Petrology
- 2. Nockolds, Chinner and Kinox: Petrology for students
- 3. Harker : Petrology for students
- 4. Blatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic)
- 5. Hall : Igneous Petrology
- 6. Hyndman, W.D. : Petrology of Igneous and Metamorphic Rocks
- 7. Turner and Verhoogen : Igneous and Metamorphic Petrology
- 8. Hatch and Wells : Petrology of the Igneous Rocks
- 9. Philpotts : Principles of Igneous and Metamorphic Petrology
- 10. Philpotts, A., & Ague, J. (2009). Principles of igneous and metamorphic petrology. Cambridge University Press.
- 11. Winter, J. D. (2014). Principles of igneous and metamorphic petrology. Pearson.
- 12. Rollinson, H. R. (2014). Using geochemical data: evaluation, presentation, interpretation. Routledge.
- 13. Raymond, L. A. (2002). Petrology: the study of igneous, sedimentary, and metamorphic rocks. McGraw-Hill Science Engineering.
- 14. McBirney, A. R. (1984). Igneous Petrology. San Francisco (Freeman, Cooper & Company) and Oxford (Oxford Univ. Press),
- 15. Myron G. Best (2001). Igneous and Metamorphic Petrology,
- 16. K. G. Cox, J. D. Bell. (1979). The Interpretation of Igneous Rocks. Springer/Chapman & Hall.
- 17. Bose M.K. (1997). Igneous Petrology.
- 18. G W Tyrrell. (1926). Principles of Petrology. Springer

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

SEMESTER - IV

MJC6 : SEDIMENTOLOGY

Course Objective

- To impart knowledge of formation of sedimentary rocks.
- To understand the environment and facies of sedimentary terrain.

MJC6 : SEDIMENTOLOGY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	Processes of formation of Sedimentary rocks. Lithification and Diagenesis. Provenance & Heavy minerals	08
2	Elementary idea of Sedimentary Environments: <i>Physical and Chemical</i> <i>parameters</i> Concept of Sedimentary facies Tectonics and sedimentation	08
3	Texture of Sedimentary Rocks Clastic and Non-clastic rocks Structures of Sedimentary Rocks: <i>Primary, Secondary, Biogenic</i>	10
4	Classification of sedimentary rocks Petrography of the following sedimentary rocks: Conglomerate, Breccia, Sandstone – Arkose, Greywacke, Orthoquartzite, Limestone, Dolomite, Shale	10
	TOTAL	36

MJC6 Practical: SEDIMENTOLOGY (Credit: 2)

Practical

- 1. Megascopic study of the following rocks: Conglomerate, Breccia, Sandstones, Shale, Limestone, Dolomite
- 2. Microscopic study of the following rocks: Sandstone, Orthoquartzite, Arkose, Greywacke, Limestone
- 3. Microscopic study of Heavy minerals.
- 4. Study of sedimentary structures in rock samples.

Shelf 20/28

Als Gresnog 2019/23

- Explain different processes responsible for the formation of sedimentary rocks.
- Understand the basic features and classification of sedimentary rocks.
- Understand sedimentary environments and their significance in geological studies.

Suggested Reading:

- 1. Allen, J.R.L., (1985). Principles of Physical Sedimentology. George Allen and Unwin, LondonBlatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic)
- 2. Blatt, H., Middleton, G., and Murray, R., (1980). Origin of Sedimentary rocks. Princeton Hall.

- 13. Tyrell, G.W. : Principles of Petrology
- 14. Tucker, M. E. (2006) Sedimenary Petrology, Blackwell Publishing.

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

Sel 1909/03

SEMESTER - IV

MJC7 : METAMORPHIC PETROLOGY

Course Objective

- 1. To impart knowledge about Metamorphism and metasomatism of rocks.
- 2. To train the students to understand the different process of formations of metamorphic rocks and their significance.

MJC7 : METAMORPHIC PETROLOGY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	Aims and scope of Metamorphic Petrology Concept of Metamorphism: <i>Diagenesis, Anataxis, Palingenesis</i> Concept of Metamorphic Grade, Zones, Isograds, Index minerals	08
2	Agents of metamorphism Types of Metamorphism – Contact, Cataclastic, Regional Preliminary ideas of – Metasomatism, Metamorphic differentiation, Prograde, Retrograde and Poly-metamorphism, Paired metamorphic belts	08
3	Texture of metamorphic rocks Structure of metamorphic rocks Classification of metamorphic rocks	10
4	Metamorphic Facies and Facies series Plate tectonics and metamorphism Petrography of the following metamorphic rocks : Slate, Phyllite, Schist, Gneiss, Amphibolite, Marble, Quartzite, Hornfels, Charnockite, Khondalite.	10
	TOTAL	36

MJC7 Practical: METAMORPHIC PETROLOGY (Credit: 2)

Practical

- 1. Megascopic study of the following rocks:
- Slate, Phyllite, Schist, Gneiss, Marble, Charnockite, Amphibolite, Khondalite. 2. Microscopic study of the following rocks:
 - Schist, Gneiss, Amphibolite, Charnockite.

Shell 20/2/23

- Know about various agents of metamorphism.
- Understand the basic features and classification of metamorphic rocks.
- · Understand the inter-relationship between plate tectonics and metamorphism.

Suggested Reading:

- 1. Tyrell, G.W. : Principles of Petrology
- 2. Huang : Petrology
- 3. Nockolds, Chinner and Kinox: Petrology for students
- 4. Harker : Petrology for students
- 5. Blatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic)
- 6. Best, M.G. : Igneous and Metamorphic Petrology
- 7. Hyndman, W.D. : Petrology of Igneous and Metamorphic Rocks
- 8. Turner and Verhoogen : Igneous and Metamorphic Petrology
- 9. Philpotts, A., & Ague, J. (2009). Principles of igneous and metamorphic petrology. Cambridge University Press.
- 10. Winter, J. D. (2014). Principles of igneous and metamorphic petrology. Pearson.
- 11. Rollinson, H. R. (2014). Using geochemical data: evaluation, presentation, interpretation. Routledge.
- 12. Raymond, L. A. (2002). Petrology: the study of igneous, sedimentary, and metamorphic rocks. McGraw-Hill Science Engineering.
- 13. Yardley, B. W., & Yardley, B. W. D. (1989). An introduction to metamorphic petrology. Longman Earth Science Series.

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks 10 x 2 = 20 marks

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

SEMESTER - V

MJC 8: STRATIGRAPHY

Course Objective

- To impart basic knowledge about Stratigraphy
- To understand the characteristics of different stratigraphic units in India.

MJC8 : STRATIGRAPHY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	Principles of Stratigraphy. Methods of Startigraphic correlation. Brief idea about Lithostratigraphy, Biostratigraphy, Chronostratigraphy, Magnetostratigraphy, Seismic stratigraphy Brief study of – cratons and mobile belts.	08
2	Brief account of the stratigraphy with special reference to classification, distribution, lithology, fossil content (if any) and economic significance of Archaean of Dharwar and Singhbhum Cuddapah supergroup and Vindhyan supergroup	10
3	Brief account of the stratigraphy of the following with special reference to classification, distribution, lithology, fossils and economic significance. Gondwana supergroup, Jurassic of Kutch, Cretaceous of South India	10
4	Brief account of the stratigraphy of the following with special reference to classification, distribution, lithology, fossil content and economic significance. <i>Tertiary of Assam</i> <i>Siwalik group</i> Brief idea of important stratigraphic boundaries in India.	08
	TOTAL	36

MJC8 Practical: STRATIGRAPHY (Credit: 2)

Practical

1. Exercise related to major Startigraphic units in India

Pales

- Dharwar, Singhbhum, Cudappah, Vindhyan, Gondwana
- 2. Study of stratigraphic rocks.
- 3. Exercise related to Biostratigraphy.

20/22

alesiel 2019/23

- Apply principles of stratigraphy in various geological studies.
- Understand geology of India.
- Have a comprehensive idea of Geological evolution of Indian sub-continent.

Suggested Reading:

- 1. Krishnan, M. S. (1982) Geology of India and Burma, CBS Publishers, Delhi
- 2. Doyle, P. & Bennett, M. R. (1996) Unlocking the Stratigraphic Record. John Wiley
- 3. Ramakrishnan, M. &Vaidyanadhan, R. (2008) Geology of India Volumes 1 & 2, Geological society of India, Bangalore.
- 4. Ravindrakumar (2018). Fundamentals of Historical Geology and Stratigraphy of India, Newage Publication
- 5. Valdiya, K. S. (2010) The making of India, Macmillan India Pvt. Ltd
- 6. Wadia, D., (1973). Geology of India. Mcgraw Hill

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

Sleffron 123

2019/23

SEMESTER - V

MJC9 : PALAEONTOLOGY

Course Objective

- To impart the basic knowledge of palaeontology
- To understand the fundamentals of organic evolution
- To train the students about Invertebrate Paleontology, filora and importance of microfossils.

MJC9 : PALAEONTOLOGY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	Definition, Branches and Scope of Palaeontoology	08
	Fossils – definition and types	
	Modes of preservation of fossils	
	Ichnofossils; Index fossil	
	Uses of Fossils	
2	Theories of organic evolution	08
	Life through geologic ages	00
	Mass Extinctions	
3	Classification, Morphology and Geological history of the following:	10
	Gastropoda, Bivalvia, Cephalopoda, Brachiopoda, Trilobita	
4	Palaeobotany and its application	10
	Significance of Gondwana flora	10
	Extinction of Siwalik mammals	
	Microfossils and their significance	
	TOTAL	36

MJC9 Practical: PALAEONTOLOGY (Credit: 2)

Practical

1. Identification of fossils and their geological age:

Gastropods- Cerithium, Turritella, Conus, Physa, Murex, Voluta Bivalvia/Lamellibranchia/Pelycepods- Arca, Pecten, Inoceramus, Spondylus, Ostrea, Gryphaea, Exogyra, Trigonia and Cardita Cephalopods- Perisphinctes, Goniatite, Ceratite, Nautilus, Orthoceras, Belemnites Brachiopods- Productus, Spirifer, Terebratulla, Rhynconella Trilobites- Calymene, Phacops, Paradoxides, Agnostus Plant fossils- Gangamopteris, Glossopteris, Vertebraria, Ptillophylum Microfossils- Foraminifera, Ostracods, Diatoms and Radiolaria

2. Drawing of fossils morphological features.

- Explain the different theories regarding evolution of life.
- Identify and differentiate various types of fossils.
- Understand the importance of fossils.

Suggested Reading:

- 1. Cowen, R., (2000). History of Life. Blackwell Science.
- 2. Doyle, P.: Understanding Fossils: An Introduction to Invertebrate Palaeontology.
- 3. Raup, D.M., Stanley, S.M., Freeman, W.H. (1971) Principles of Paleontology
- 4. Clarkson, E. N. K. (2012) Invertebrate paleontology and evolution 4th Edition by BlackwellPublishing.
- 5. Benton, M. (2009). Vertebratepaleontology. John Wiley & Sons.
- 6. Shukla, A. C., & Misra, S.P. (1975). Essentials of paleobotany. Vikas Publisher
- 7. Armstrong, H.A., & Brasier, M.D. (2005) Microfossils. Blackwell Publishing.
- 8. Woods, Henry : Invertebrate Palaeontology

The question paper pattern shall consist of three parts -

Part A - Compulsory - consisting of Objective/ Multiple Choice type each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks $04 \ge 5 = 20 \text{ marks}$
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks $03 \times 10 = 30 \text{ marks}$

SEMESTER - VI

MJC 10: ENVIRONMENTAL GEOLOGY AND GEOGENIC DISASTER

Course Objective

- To train students about the basic fundamental aspects of environment.
- To impart knowledge about the impact of the natural/anthropogenic hazards on environment.

Unit	Topics to be covered	No. of Lectures
1	Introduction to Environmental geology; Environmental Pollution Interaction between Human activities and the natural environment Geological factors of environmental health Biogeochemical cycle	10
2	Water Quality Parameters and BIS standards Heavy Metal Pollution Remedial measures of pollution Impact of Urban waste disposal	08
3	Floods: Interaction between rivers and its flood plain Flood plain mapping and zoning Landslides – Causes, Types and Mitigation	10
4	Earthquakes: Causes, Effects and Mitigation Volcanoes and Volcanic hazards	10
5	Climate change Cyclones - Monitoring and early warning. Droughts – Meteorological, Agriculture and Hydrological types Environmental legislations in India	10
	TOTAL	48

Course Outcome

- Understand the structure and functions of ecosystem.
- Comprehend natural and anthropogenic factors affecting Environment.
- Explain natural disasters and its mitigation

Sfelfrog 23

are Sn

Suggested Reading:

- 1. Bell, F.G., 1999. Geological Hazards, Routledge, London.
- 2. Bryant, E., 1985. Natural Hazards, Cambridge University Press.

The question paper pattern shall consist of three parts -

Part A - Compulsory - consisting of Objective/ Multiple Choice type each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

Part B - Short Answer Type - Four questions to be answered out of six questions each carrying five marks $04 \ge 5 = 20 \text{ marks}$

Part C – Long Answer Type – Three questions to be answered out of five questions – each carrying ten marks

 $03 \ge 10 = 30 \text{ marks}$

<u>SEMESTER – VI</u>

MJC11 : ECONOMIC GEOLOGY

Course Objective

- 1. To impart knowledge about mineral deposits and processes of formation of deposits.
- 2. To know genesis and distribution of major ore minerals in India.
- 3. To understand the techniques of exploration.

MJC11 : ECONOMIC GEOLOGY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	 Introduction to Ore, Ore mineral, Deposits, Gangue, Tenor, Cut-off grade, Reserve; Forms and structure of ore deposits. Classification of Ore deposits Metallogenic epochs and provinces. 	08
2	Processes of formation of mineral deposits with special reference to: Magmatic Concentration, Hydrothermal processes, Supergene Sulphide enrichment, Residual deposits, Placer deposits	08
3	Detailed study of the following economic mineral deposits of India: Iron, Manganese, Bauxite, Base-metals, Coal, Petroleum, Atomic minerals Mineral resources of Bihar	10
4	Brief idea of relationship between Plate Tectonics and Mineral deposits. Prospecting and exploration methods - <i>Geological, Geophysical, Geochemical</i>	10
	TOTAL	36

MJC11 Practical: ECONOMIC GEOLOGY (Credit: 2)

Practical

1. Study of the Physical properties, chemical composition and distribution of important economic minerals:

Talc, Graphite, Gypsum, Calcite, Fluorite, Apatite, Topaz, Corundum, Beryl, Barite, Kyanite, Sillimanite, Hematite, Magnetite, Chromite, Chalcopyrite, Malachite, Azurite, Pyrolusite, Psilomelane, Magnesite, Bauxite, Galena, Pyrite, ,Garnet, Asbestos, Fire clay, and China clay, Coal.

- 2. Distribution of economic minerals on the map of Bihar.
- 3. Distribution of economic minerals on the map of India.

makes 2019/23 10 23 9 22

- Identify various ore minerals and their deposits.
- Have a comprehensive idea about genesis and distribution of major ore minerals and associated host rocks.
- · Describe the methods of exploration of mineral deposits.

Suggested Reading:

- 1. Bagchi, Sengupta and Rao: Elements of Prospecting and Exploration
- 2. Brown, C. and Dey, A.K.: Indian Mineral Wealth
- 3. Deb, S. (1980) Industrial minerals and rocks of India. Allied Publishers.

SEMESTER - VI

MJC12 : ENGINEERING GEOLOGY AND HYDROGEOLOGY

Course Objective

- 1. To understand the fundamentals of engineering geology.
- 2. To impart knowledge of basic hydrogeology including groundwater origin, occurrence and distribution.
- 3. To train students on basics of groundwater, water budget and management.

Unit	Topics to be covered	No. of Lectures
1	Engineering properties of Rocks.	08
	Surface and sub-surface soil investigation for geo-engineering purposes	
	Role of Geology in planning and Construction of Engineering Projects: Dam site selection, Tunnels, Bridge and Road alignment	
2	Hydrogeology: concept, scope and its societal relevance.	08
	Hydrologic cycle;	
	Origin and types of water: Juvenile water, Connate water, Meteoric water, Vadose water	
	Hydrogeological properties of water-bearing formation: Porosity,	
	Permeability, Specific yield, Transmissivity, Storage coefficient Darcy's law	
3	Vertical distribution of subsurface water; Zone of aeration and zone of saturation	10
	Water table and Piezometric surface.	
	Types of Aquifer: Unconfined, Confined and Leaky aquifers.	
	Springs and their Types	
4	Physical and chemical properties of water; Ground water quality	10
	Groundwater resources of Bihar	
	Rain water harvesting; Artificial recharge of groundwater	
	TOTAL	36

MJC12 Practical: ENGINEERING GEOLOGY AND HYDROGEOLOGY (Credit: 2)

Practical

- 1. Numerical problem on engineering geology
- 2. Solving problems using stereonet.
- 3. Hydrogeological properties of Rocks Granite, Rhyolite, Basalt, Gabbro

1920/9/23

2019/23

Sandstone, Limestone, Shale

Gneiss, Schist, Quartzite

- 4. Study of hydrogeological provinces of Bihar.
- 5. Physical and chemical characteristics of water.

Course Outcome

- · Explain the fundamentals of hydrogeology.
- · Define the movement and distribution of groundwater.
- Define physico-chemical nature of groundwater.
- Define physico-mechanical properties of rocks.
- Define the role of geology in planning and construction of civil structures.

Suggested Reading:

SEMESTER - VII

MJC13 : OCEANOGRAPHY

Course Objective

- 1. To impart the basic concept of Oceanography.
- 2. To understand the link between ocean and atmosphere.
- 3. To develop a comprehensive idea about marine life and environment.

MJC13 : OCEANOGRAPHY (Credit: 3)		
Unit	Topics to be covered	No. of Lectures
1	Definitions and Scope of Oceanography Origin of Ocean; Relief of the Ocean floor; Hypsographic curve - continental shelf, slope, rise and abyssal plains, submarine canyons Introduction to Ocean Stratification/Layers	08
2	Atmosphere-Ocean interaction; Concept of Coriolis Effect Ocean current system; warm and cold current and their distribution Indian Monsoon System	08
3	Physical and chemical properties of sea water and their spatial variations. Residence times of elements in sea water. Concept of Thermohaline circulation and Oceanic Conveyor Belt El Nino and La Nina	10
4	Primary productivity in the Oceans Environmental Factors for Marine Life – <i>Physical and Biological factors</i> Communities of Oceans – <i>Pelagic and Benthic Communities</i> Nature of Marine deposits Classification of Marine Sediments	10
	TOTAL	36

MJC13 Practical: OCEANOGRAPHY (Credit: 2)

Practical

- 1. Study of major Ocean currents of the world
- 2. Preparation of Palaeo-oceanographic maps (distribution of land and sea) of India during specific geologic time intervals.
- 3. Study of microfossils

Shelf 23/22

2019/23

- Understand the ocean topography and global ocean circulation.
- Explain atmosphere-ocean interaction and Indian monsoon system.
- Understand marine resources and factors affecting marine life.

Suggested Reading:

- 1. Garrison, Tom, 2011. Essentials of Oceanography, Brooks/Cole; International edition.
- 2. Thomas D. & Bowers D., 2012. Introducing Oceanography (Introducing Earth and Environmental Sciences); Dunedin Academic Press.
- 3. Ruddiman, W.F., 2008, Earth's Climate Past and Future, WH Freeman & Co.
- 4. Bender, M., 2013, Paleoclimate, Princeton Premiers in Climate.
- 5. Kenneth, J., 1982, Marine Geology and Geophysics.
- 6. Wright J. and Colling A., 1995, Seawater: its composition, properties and behaviors, The Open University.

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

Shell 20/9/03

2079/23

SEMESTER - VII

MJC15 : FUNDAMENTALS OF GEOCHEMISTRY AND GEOPHYSICS

Course Objective

- 1. To impart basis knowledge of elemental and isotopic concentrations, classification and behaviour of elements in the earth.
- 2. To impart knowledge of Geophysics and applications of physics in geology.

Unit	Topics to be covered	No. of Lectures
1	The Periodic Table Cosmic abundance of element; Oddo-Harkin's Principle. Geochemical classification of elements; Partition Coefficient: Compatible and Incompatible Elements	08
2	Meteorites & its Composition. Composition of the Earth's Crust, Mantle and Core. Basics of Isotope Geology: Radiogenic and Stable isotopes.	10
3	Inter-relationship between geology and geophysics Preliminary ideas of geophysical anomalies Different types of survey: Scales of survey; Profiling and Sounding techniques	10
4	Concept of gravity and gravitational field; variations of gravity over the Earth's surface Geomagnetic field and its variations; concept of magnetic declination and magnetic inclination. Basic principles of resistivity Fundamental principles of seismic wave propagation	12
5	 Brief idea of the principles and applications of different types of geophysical methods: gravity, magnetic, electrical, seismic Brief outline of various well-logging techniques. 	08
	TOTAL	48

MJC15 Practical: FUNDAMENTALS OF GEOCHEMISTRY AND GEOPHYSICS (Credit: 2)

Practical

- 1. Study of physical and chemical characteristics- Colour, Turbidity, TSS, TDS, pH, Alkalinity.
- 2. Interpretation of geochemical data.
- Study and interpretation of geophysical data: resistivity, gravity, magnetic, seismic

4. Study of well-logging data.

Course Outcome

- Explain the key concepts of geochemistry.
- Understand the interrelation between different spheres of geochemistry.
- Explain various applications of geochemistry.
- Understand different components of geophysics and its applications.
- Explain different methods of geophysical exploration.

Suggested Reading:

- 1. Albarede, F. (2003). Geochemistry: an introduction. Cambridge University Press.
- 2. Dobrin, M.B. (1984) An introduction to Geophysical Prospecting. McGraw-Hill, New Delhi.
- 3. Exploration Geophysics- An Outline by Bhimasarikaram V.L.S., Association of Exploration Geophysicists, Osmania University, Hyderabad, 1990.
- 4. Faure, Gunter and Teresa M. Mensing (2004). Isotopes Principles and Applications. Wiley India Pvt. Ltd
- 5. Lowrie, W. (2007). Fundamentals of geophysics. Cambridge University Press.
- 6. Mason, B. (1986). Principles of Geochemistry. 3rd Edition, Wiley, New York.
- 7. Moon, C.J., Whateley, M.K.G., Evans, A.M., 2006, Introduction to Mineral Exploration, Blackwell Publishing.
- 8. Outlines of Geophysical Prospecting- A manual for geologists by Ramachandra Rao, M. B., Prasaranga, University of Mysore, Mysore, 1975.
- 9. Rollinson, H. (2007). Using geochemical data evaluation, presentation and interpretation. 2ndEdition. Publisher Longman Scientific and Technical.
- 10. Telford, W.M., Geldart, L.P., & Sheriff, R.E. (1990). Applied geophysics (Vol.1). Cambridge university press.
- 11. Walther, J. V. (2009). Essentials of geochemistry. Jones and Bartlett Publishers.

The question paper pattern shall consist of three parts -

- Part A Compulsory consisting of Objective/ Multiple Choice type each carrying two marks
- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks

 $10 \ge 2 = 20$ marks

Part C – Long Answer Type – Three questions to be answered out of five questions – each carrying ten marks 03 x 10 = 30 marks

SEMESTER - VIII

MJC16 : REMOTE SENSING AND GIS

Course Objective

1

- 1. To impart the knowledge of basic tools of aerial photography
- 2. To study the techniques of image interpretation
- 3. To understand the concepts of GIS, DIP, etc.

MJC16 : REMOTE SENSING AND GIS (Credit: 3)		
Unit	Topics to be covered	No. of Lecture
1	Introduction to aerial photographs. Types of aerial photographs and classification Scale of aerial photographs Principles of stereoscopic viewing	06
2	Basic concepts in remote sensing, electromagnetic spectrum EMR interaction with atmosphere and earth surface Atmospheric windows, atmospheric effects on remotely sensed data	10
3	Types of satellites. Sensors and their characteristics, Sensor platforms. Spatial, Spectral and Temporal resolution Introduction to Digital Image Processing Indian Remote Sensing satellites	10
4	Introduction to GIS, Components of GIS, Applications of GIS Data input, Data output and visualization, Raster and vector data Geo-referencing, Map projections GPS and its applications	10
	TOTAL	36

MJC16 Practical: REMOTE SENSING AND GIS (Credit: 1)

Practical

- 1. Study of Toposheets, Contours, spot heights.
- 2. Scale conversion: RF, linear, Verbal.
- 3. Stereoscopic study of Aerial photographs.
- 4. Study of Satellite imageries.
- 5. Introduction to DIP and GIS software

Shelf 20/9/22

alesiph 2019/23

Course Outcome

- Understand the basics of aerial photography. .
- Explain the principles, applications of Remote Sensing and Geographic Information System.

Suggested Reading:

- 1. Demers, M.N., 1997. Fundamentals of Geographic Information System, John Wiley & sons. Inc.
- 2. Hoffmann-Wellenhof, B., Lichtenegger, H. and Collins, J., 2001. GPS: Theory & Practice, Springer Wien New York.
- 3. Jensen, J.R., 1996. Introductory Digital Image Processing: A Remote Sensing Perspective, Springer- Verlag.
- 4. Lillesand, T. M. & Kiefer, R.W., 2007. Remote Sensing and Image Interpretation, Wiley.
- 5. Richards, J.A. and Jia, X., 1999. Remote Sensing Digital Image Analysis, Springer-Verlag

The question paper pattern shall consist of three parts -

Part A - Compulsory - consisting of Objective/ Multiple Choice type each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks $04 \ge 5 = 20 \text{ marks}$
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks $03 \ge 10 = 30 \text{ marks}$

lethopps make 20191

SEMESTER - III

MIC3 : STRUCTURAL GEOLOGY AND GEOMORPHOLOGY

Course Objective

- 1. To educate the students about the concept of rock deformation.
- 2. To understand qualitative aspects of brittle and ductile deformation processes, and descriptive analysis.
- 3. To impart knowledge about folds, faults, joints, unconformity.
- 4. Understand different landforms and their evolution.
- 5. Gain an idea of the geomorphology of Indian subcontinent.

Unit	Topics to be covered	No. of Lectures
1	Elementary idea of structural geology Concept of Stress and Strain, Stress and Strain ellipsoid Attitude of beds, Dip and Strike Clinometer and Brunton compass and its Uses Outliers and inliers	05
2	Joint - definition and types Unconformity – definition and types Fold – definition, classification and its recognition in field Fault – definition, classification and its recognition in field	07
3	Definition, Scope and Fundamental concepts of Geomorphology Exogenic and Endogenic geomorphic processes; Diastrophism Geomorphic cycle Geomorphic features of India	05
4	Geological work of natural agencies: <i>Wind action and Aeolian landforms</i> <i>Underground water and Karst topography</i> Glacial processes and landforms Fluvial processes and landforms	07
	TOTAL	24

MIC3 Practical: STRUCTURAL GEOLOGY AND GEOMORPHOLOGY (Credit: 1)

Practical

- 1. Study of geological maps.
- 2. Drawing of geological section and description of geological history of the area.
- 3. Physiographic division of India.
- 4. Exercise on drainage pattern.

120/23

Course Outcome

· • • •

- Gain knowledge of factors responsible for generating structural features of rocks. •
- . Analyse the concept of stress and strain.
- · Understand the concept and mechanism of folds, faults, joints and unconformity

Suggested Reading:

- 1. Billings, M. P. (1987) Structural Geology, 4th edition, Prentice-Hall
- 2. Davis, G. R. (1984) Structural Geology of Rocks and Region. John Wiley
- 3. Hills, E.S., (1963) Elements of Structural Geology. Farrold and sons, London.
- 4. Lahee F. H. (1962) Field Geology. McGraw Hill
- 5. Park, R. G. (2004) Foundations of Structural Geology. Chapman & Hall.
- 6. Pollard, D. D. (2005) Fundamental of Structural Geology. Cambridge University Press.
- 7. Ragan, D. M. (2009) Structural Geology: an introduction to geometrical techniques (4th Ed). Cambridge University Press (For Practical)
- 8. Ramsay, J.G. (1967) Folding and fracturing of rocks. Mcgraw-Hill, New York
- 9. Chorley, R. J., (1984) Geomorphology. Methuen.
- 10. M.A. Summerfield (1991) Global Geomorphology. Wiley & Sons.
- 11. Robert S. Anderson and Suzzane P. Anderson (2010): Geomorphology The Mechanics and Chemistry of Landscapes. Cambridge University Press.
- 12. Selby, M. J., (1996) Earths Changing Surface. Oxford University Press, UK
- 13. Thornbury, W. D., (1997) Principles of Geomorphology, Wiley eastern Limited, New Delhi
- 14. Verma, V. K., (1986) Geomorphology Earth Surface processes and form. Mcgraw Hill.

The question paper pattern shall consist of three parts -

- Part A Compulsory consisting of Objective/ Multiple Choice type each carrying two marks $10 \ge 2 = 20 \text{ marks}$
- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks $04 \ge 5 = 20 \text{ marks}$
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks $03 \times 10 = 30 \text{ marks}$

ales

SEMESTER – IV

MIC4 : IGNEOUS PETROLOGY

Course Objective

7 e .

- · To impart knowledge about the magmatic systems and igneous rocks
- To train the students to classify an igneous rock.

MIC4 : IGNEOUS PETROLOGY (Credit: 2)		
Unit	Topics to be covered	
1	Introduction to Petrology - <i>distinguishing features of three types of rocks</i> . Magma – definition, physical and chemical properties	04
2	Forms and Structure of Igneous rock Texture of Igneous rock Plate tectonics and Magmatism	04
3	Bowen's Reaction series: <i>Discontinuous and Continuous series</i> Different schemes of classification of Igneous rock. Diversity of Igneous rocks.	08
4	Petrographic description of the following rock types : Granite, Rhyolite, Syenite, Nepheline-syenite, Monzonite, Diorite, Anorthosite, Gabbro, Dolerite, Basalt, Peridotite, Pyroxenite, Dunite, Trachyte and Andesite.	08
	TOTAL	24

MIC4 Practical: IGNEOUS PETROLOGY (Credit: 1)

Practical

- Megascopic study of the following rocks: Granite, Syenite, Pegmatite, Diorite, Gabbro, Dolerite, Basalt, Rhyolite, Dunite, Trachyte, Obsidian, Pumice, Peridotite, Pyroxenite, Anorthosite, Norite
- Microscopic study of the following rocks: Granite, Syenite, Nepheline-syenite, Granodiorite, Diorite, Gabbro, Dolerite, Basalt, Peridotite, Anorthosite.

Course Outcome

- Understand the concept of different rock types.
- Comprehend various classifications of igneous rocks.
- Explain the factors responsible for diversity of igneous rocks.

(2) areandy 2019/23

Suggested Reading:

· _ ,

- 1. Huang : Petrology
- 2. Nockolds, Chinner and Kinox: Petrology for students
- 3. Harker : Petrology for students
- 4. Blatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic)
- 5. Hall : Igneous Petrology
- 6. Hyndman, W.D. : Petrology of Igneous and Metamorphic Rocks
- 7. Turner and Verhoogen : Igneous and Metamorphic Petrology
- 8. Hatch and Wells : Petrology of the Igneous Rocks
- 9. Philpotts, A., & Ague, J. (2009). Principles of igneous and metamorphic petrology. Cambridge University Press.
- 10. Winter, J. D. (2014). Principles of igneous and metamorphic petrology. Pearson.
- 11. Raymond, L. A. (2002). Petrology: the study of igneous, sedimentary, and metamorphic rocks. McGraw-Hill Science Engineering.
- 12. McBirney, A. R. (1984). Igneous Petrology. San Francisco (Freeman, Cooper & Company) and Oxford (Oxford Univ. Press),
- 13. Myron G. Best (2001). Igneous and Metamorphic Petrology,

- 15. Bose M.K. (1997). Igneous Petrology.
- 16. G W Tyrrell. (1926). Principles of Petrology. Springer

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

anesych 2019/23

SEMESTER - V

MIC5 : SEDIMENTOLOGY AND METAMORPHIC PETROLOGY

Course Objective

- · To impart knowledge of formation of sedimentary rocks.
- To understand the environment of sedimentary terrain.
- To impart knowledge about Metamorphism and metasomatism of rocks.

Unit	Topics to be covered	No. of Lectures
1	Processes of formation of Sedimentary rocks.	06
	Elementary idea of Sedimentary Environments: Physical and Chemical parameters	
	Classification of sedimentary rocks	
2	Texture of Sedimentary Rocks	06
	Structures of Sedimentary Rocks: Primary, Secondary, Biogenic	
3	Aims and scope of Metamorphic Petrology	08
	Agents of metamorphism	
	Types of Metamorphism - Contact, Cataclastic, Regional	
4	Texture and structure of metamorphic rocks	04
	Concept of Metamorphic Grade, Zones and Facies,	8500
	TOTAL	24

MIC5 Practical: SEDIMENTOLOGY AND METAMORPHIC PETROLOGY (Credit: 1)

Practical

- 1. Megascopic study of the following rocks:
 - Conglomerate, Breccia, Sandstones, Shale, Limestone, Dolomite
- 2. Microscopic study of the following rocks: Sandstone, Limestone
- 3. Megascopic study of the following rocks: Slate, Phyllite, Schist, Gneiss, Marble, Charnockite, Amphibolite, Khondalite.
- 4. Microscopic study of the following rocks: Schist, Gneiss, Amphibolite, Charnockite.

Shelf #20/9/23

Jul areangh 2079/23

Course Outcome

- Explain different processes responsible for the formation of sedimentary rocks. .
- Understand the basic features and classification of sedimentary rocks.
- Know about various agents of metamorphism and basic features of metamorphic rocks.

Suggested Reading:

- 1. Allen, J.R.L., (1985). Principles of Physical Sedimentology. George Allen and Unwin, LondonBlatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic)
- 2. Best, M.G. : Igneous and Metamorphic Petrology
- 3. Blatt, H., Middleton, G., and Murray, R., (1980). Origin of Sedimentary rocks. Princeton Hall.
- 4. Boggs, S.: Petrology of Sedimentary Rocks, Cambridge University Press.
- 5. Folk, R. L., (1974). Petrology of Sedimentary Rock. Hemphill Publishing Company, Austin, Texas
- 6. Harker : Petrology for students
- 7. Huang : Petrology
- 8. Nockolds, Chinner and Kinox: Petrology for students
- 9. Pettijohn, F. J., (1984) Sedimentary rocks, Harper & Bros.
- 10. Sengupta, S. M., (2007). Introduction to Sedimentology, CBS Publishers and Distributor, New Delhi.
- 11. Raymond, L. A. (2002). Petrology: the study of igneous, sedimentary, and metamorphic rocks. McGraw-Hill Science Engineering.
- 12. Tyrell, G.W. : Principles of Petrology
- 13. Winter, J. D. (2014). Principles of igneous and metamorphic petrology. Pearson.
- 14. Yardley, B. W., & Yardley, B. W. D. (1989). An introduction to metamorphic petrology. Longman Earth Science Series.

The question paper pattern shall consist of three parts -

Part A - Compulsory - consisting of Objective/ Multiple Choice type each carrying two marks

 $10 \ge 2 = 20 \text{ marks}$

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks $04 \ge 5 = 20 \text{ marks}$
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks $03 \ge 10 = 30 \text{ marks}$

<u>SEMESTER – V</u>

MIC 6: STRATIGRAPHY

Course Objective

- To impart basic knowledge about Stratigraphy
- To understand the characteristics of different stratigraphic units in India.

MIC6 : STRATIGRAPHY (Credit: 2)		
Unit	Topics to be covered	
1	Principles of Stratigraphy. Methods of Startigraphic correlation. Brief idea about <i>Lithostratigraphy, Biostratigraphy and Chronostratigraphy</i>	05
2	Stratigraphy of India – an overview Brief account of the Precambrian stratigraphy of <i>India</i>	05
3	Brief account of the stratigraphy of the following with special reference to classification, distribution, lithology, fossils and economic significance. Gondwana supergroup, Jurassic of Kutch, Cretaceous of South India	08
4	Brief account of the stratigraphy of the following with special reference to classification, distribution, lithology, fossil content and economic significance. <i>Tertiary of Assam, Siwalik group</i>	06
	TOTAL	24

MIC6 Practical: STRATIGRAPHY (Credit: 1)

Practical

- 1. Exercise related to major Startigraphic units in India Dharwar, Singhbhum, Cudappah, Vindhyan, Gondwana
- 2. Study of stratigraphic rocks.

Course Outcome

- Apply principles of stratigraphy in various geological studies.
- Understand geology of India.
- Have a comprehensive idea of Geological evolution of Indian sub-continent.

Shelf 20/1/23

M aresign 2019/23

SEMESTER - VI

MIC7 : PALAEONTOLOGY

Course Objective

- To impart the basic knowledge of palaeontology
- To understand the fundamentals of organic evolution
- To train the students about Invertebrate Paleontology, fllora and importance of microfossils.

MIC7 : PALAEONTOLOGY (Credit: 2)		
Unit	Topics to be covered	No. of Lectures
1	Definition, Branches and Scope of Palaeontoology Fossils – definition and types Modes of preservation of fossils Ichnofossils; Index fossil	08
2	Uses of Fossils Life through geologic ages Microfossils and their significance	04
3	Mass Extinctions Classification, Morphology and Geological history of the following: Gastropoda, Bivalvia, Cephalopoda	08
4	Classification, Morphology and Geological history of the following: Brachiopoda, Trilobita	04
	TOTAL	24

MIC7 Practical: PALAEONTOLOGY (Credit: 1)

Practical

- 1. Identification of fossils and their geological age:
 - Gastropods- Turritella, Conus, Physa, Murex, Voluta
 - Bivalvia/Lamellibranchia/Pelycepods- Arca, Pecten, Spondylus, Ostrea, Gryphaea, Exogyra
 - Cephalopods- Perisphinctes, Goniatite, Ceratite, Nautilus, Orthoceras
 - Brachiopods- Productus, Spirifer, Terebratulla, Rhynconella
 - Trilobites- Calymene, Phacops, Paradoxides
- Plant fossils- Glossopteris, Vertebraria, Ptillophylum
- 2. Drawing of fossils morphological features.

Shell 20/2/2

are Simph

Course Outcome

· 2

- Explain the different theories regarding evolution of life.
- Identify and differentiate various types of fossils.
- Understand the importance of fossils.

Suggested Reading:

- 1. Cowen, R., (2000). History of Life. Blackwell Science.
- 2. Doyle, P.: Understanding Fossils: An Introduction to Invertebrate Palaeontology.
- 3. Raup, D.M., Stanley, S.M., Freeman, W.H. (1971) Principles of Paleontology
- 4. Clarkson, E. N. K. (2012) Invertebrate paleontology and evolution 4th Edition by BlackwellPublishing.
- 5. Benton, M. (2009). Vertebratepaleontology. John Wiley & Sons.

<u>SEMESTER – VI</u>

MIC8 : ECONOMIC GEOLOGY AND HYDROGEOLOGY

Course Objective

1. To impart knowledge about mineral deposits and processes of formation of deposits.

2. To impart knowledge of basic hydrogeology including groundwater origin, occurrence and distribution.

Unit	Unit Topics to be covered 1 Introduction to Ore, Ore mineral, Deposits, Gangue, Tenor, Cut-off grade Classification of Ore deposits Metallogenic epochs and provinces.	
1		
2	Brief idea of processes of formation of mineral deposits: Magmatic Concentration, Hydrothermal processes, Supergene Sulphide enrichment, Residual deposits, Placer deposits	06
3	Concept and scope of hydrogeology. Hydrologic cycle Hydrogeological properties of water-bearing formation: Porosity, Permeability Vertical distribution of subsurface water; Zone of aeration and zone of saturation	06
4	Types of Aquifer: Unconfined, Confined and Leaky aquifers. Springs and their Types Groundwater resources of Bihar	06
	TOTAL	24

MIC8 Practical: ECONOMIC GEOLOGY AND HYDROGEOLOGY (Credit: 1)

Practical

1. Study of the Physical properties, chemical composition and distribution of important economic minerals:

Talc, Graphite, Gypsum, Calcite, Fluorite, Apatite, Topaz, Corundum, Beryl, Barite, Kyanite, Sillimanite, Hematite, Magnetite, Chromite, Chalcopyrite, Malachite, Azurite, Pyrolusite, Psilomelane, Magnesite, Bauxite, Galena, Pyrite, ,Garnet, Asbestos.

- 2. Hydrogeological properties of Rocks Granite, Rhyolite, Basalt, Gabbro Sandstone, Limestone, Shale Gneiss, Schist, Quartzite
- 3. Study of hydrogeological provinces of Bihar.

Course Outcome

- Identify various ore minerals and their deposits.
- Explain the fundamentals of hydrogeology.
- Define the movement and distribution of groundwater.

Suggested Reading:

- 1. Bagchi, Sengupta and Rao: Elements of Prospecting and Exploration
- 2. Brown, C. and Dey, A.K.: Indian Mineral Wealth
- 3. Evans, A.M. (1993) Ore Geology and Industrial minerals. Wiley

SEMESTER - VII

MIC 9: ENVIRONMENTAL GEOLOGY AND GEOGENIC DISASTER

Course Objective

1

- To train students about the basic fundamental aspects of environment
- To impart knowledge about the impact of the natural/anthropogenic hazards on environment.

MIC9 : ENVIRONMENTAL GEOLOGY AND GEOGENIC DISASTER

Unit	Topics to be covered	No. of Lectures
1	Introduction to Environmental geology; Environmental Pollution	10
	Interaction between Human activities and the natural environment	
	Geological factors of environmental health	
_	Biogeochemical cycle	
2	Water Quality Parameters and BIS standards	08
	Heavy Metal Pollution	
	Remedial measures of pollution	
	Impact of Urban waste disposal	
3	Floods: Interaction between rivers and its flood plain	10
	Flood plain mapping and zoning	
	Landslides – Causes, Types and Mitigation	
4	Earthquakes: Causes, Effects and Mitigation	10
	Volcanoes and Volcanic hazards	
5	Climate change	10
	Cyclones - Monitoring and early warning	
	Droughts – Meteorological, Agriculture and Hydrological types	
	Environmental legislations in India	
	TOTAL	48

Course Outcome

- Understand the structure and functions of ecosystem.
- Comprehend natural and anthropogenic factors affecting Environment.
- Explain natural disasters and its mitigation

Suggested Reading:

- 1. Bell, F.G., 1999. Geological Hazards, Routledge, London.
- 2. Bryant, E., 1985. Natural Hazards, Cambridge University Press.

SEMESTER - VIII

MIC10 : EARTH AND CLIMATE

Course Objective

- 1. To impart knowledge about global monsoon system.
- 2. To understand the climate change and its effect.

MIC10 : EARTH AND CLIMATE (Credit: 4)		
Unit	Topics to be covered	No. of Lectures
1	Components of the climate system. Climate controlling factors Heat budget of the Earth.	08
2	Layering of atmosphere and atmospheric circulation Atmosphere-Ocean interaction and its effect on climate	10
3	Mechanism of monsoon Factors associated with monsoonal intensity Effects of monsoon	10
4	Response of biosphere to Earth's climate Climate Change: <i>natural and anthropogenic factors</i> Brief introduction to archives of climate change	10
5	Milankovitch cycles and variability in the climate Pleistocene Glacial-Interglacial cycles	10
	TOTAL	48

Course Outcome

- Explain global climate system.
- Understand atmospheric circulation and mechanism of Indian monsoon.
- Develop an integrated perspective on climate change.

Suggested Reading:

- 1. Rudiman, W.F., (2001). Earth's climate: past and future. Edition2, Freeman Publisher.
- 2. Rohli, R. V., and Vega, A. J., (2007). Climatology. Jones and Barlatt

GEOLOGY

Four Year Undergraduate Program under CBCS

<u>SEMESTER – II</u>

MDC2 : MINERAL AND HARD ROCKS

Course Objective

- 1. To impart fundamental knowledge of minerals and their properties.
- 2. To understand different rock types and their characteristic.

MDC2 : MINERAL AND HARD ROCKS (Credit: 2)		
Unit	Topics to be covered	No. of Lectures
1	 Mineral – definition Physical properties of the minerals: Form, Color, Streak, Lustre, Cleavage, Fracture, Hardness, Specific gravity, Tenacity, Magnetic properties, Electrical properties. Rock forming minerals Introduction to crystallography 	05
2	Petrological Microscope and its function Important optical properties: <i>Refractive index, Pleochroism, Pleochroic</i> <i>haloes, Extinction and extinction angle, Birefringence, Interference colours,</i> <i>Optical indicatrix</i>	07
3	Introduction to Petrology- distinguishing features of three types of rocks. Magma – definition, physical and chemical properties Form, Structure and Texture of Igneous rock.	05
4	Metamorphism – <i>definition, agents and types</i> Texture and Structure of Metamorphic rocks Classification of Metamorphic rocks	07
	TOTAL	24

MDC2 Practical: MINERAL AND HARD ROCKS (Credit: 1)

Practical

- 1. Megascopic and microscopic study of minerals.
- 2. Megascopic and microscopic study of rocks.

Course Outcome

- Gain knowledge of factors responsible for generating structural features of rocks.
- · Understand the concept of rocks and their types.

arefrets

Suggested Reading:

- 1. Berry and Mason, (1961). Mineralogy. W. H. Freeman & Co.
- 2. Dana, E.S. and Foo, W.E., (2002). A Textbook of Mineralogy
- 3. Kerr, B. F. (1995). Optical Mineralogy. McGraw-Hill, New York
- 4. Philips, F.C., (1963). An introduction to crystallography. Wiley, New York.
- 5. Perkin D. (2010) Mineralogy. Pearson
- 6. Ram S. Sharma and Anurag Sharma (2013) Crystallography and Mineralogy Concepts and Methods. Text Book Series, Geological Society of India, Bangalore
- 7. Verma, P. K. (2010). Optical Mineralogy (Four Colour). Ane Books Pvt Ltd.
- 8. Blatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic)
- 9. Bose M.K. (1997). Igneous Petrology Huang : Petrology
- 10. Harker : Petrology for students
- 11. McBirney, A. R. (1984). Igneous Petrology. San Francisco (Freeman, Cooper & Company) and Oxford (Oxford Univ. Press),
- 12. Myron G. Best (2001). Igneous and Metamorphic Petrology, Nockolds, Chinner and Kinox: Petrology for students
- 13. Winter, J. D. (2014). Principles of igneous and metamorphic petrology. Pearson.

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20$ marks

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks
- Part C Long Answer Type Three questions to be answered out of five questions each carrying ten marks 03 x 10 = 30 marks

Left 20/9/23

SEMESTER - III

MDC3 : SEDIMENTOLOGY AND HISTORICAL GEOLOGY

Course Objective

- 1. To impart fundamental knowledge of sedimentary rocks and classify them.
- 2. To apprise the students about the stratigraphy.
- 3. To impart the basic knowledge of palaeontology.

Unit	Topics to be covered	No. of Lectures
1	Modes of formation of Sedimentary Rocks	05
	Texture and structure of Sedimentary rocks	
	Classification of Sedimentary rocks	
2	Definition and Types of Fossil	04
	Condition of Fossilization and Modes of preservation of fossils	Promise 2
	Uses of Fossils	
3	Classification, Morphology and Geological history:	10
	Gastropoda, Bivalvia, Cephalopoda, Brachiopoda, Trilobita	
4	Definition, Principles of Stratigraphy.	05
	Methods of Stratigraphic correlation.	
	Geological Time Scale.	
	Outline of Indian Stratigraphy.	
	TOTAL	24

MDC3 Practical: SEDIMENTOLOGY AND HISTORICAL GEOLOGY (Credit: 1)

Practical

- 1. Megascopic and microscopic study of sedimentary rocks..
- 2. Study of stratigraphic rocks.
- 3. Study of fossils.

Course Outcome

- Explain different processes responsible for the formation of sedimentary rocks.
- Apply principles of stratigraphy in various geological studies.
- · Identify and differentiate various types of fossils

Suggested Reading:

1. Allen, J.R.L., (1985). Principles of Physical Sedimentology. George Allen and Unwin, LondonBlatt, Ehler: Petrology (Igneous, Sedimentary and Metamorphic).

Shelf 2019/23

Megydk 2019/23

- 2. Blatt, H., Middleton, G., and Murray, R., (1980). Origin of Sedimentary rocks. Princeton Hall.
- 3. Boggs, S.: Petrology of Sedimentary Rocks, Cambridge University Press.
- 4. Pettijohn, F. J., (1984) Sedimentary rocks, Harper & Bros.
- 5. Sengupta, S. M., (2007). Introduction to Sedimentology, CBS Publishers and Distributor, New Delhi.
- 6. Tyrell, G.W. : Principles of Petrology.
- 7. Doyle, P.: Understanding Fossils: An Introduction to Invertebrate Palaeontology.
- 8. Raup, D.M., Stanley, S.M., Freeman, W.H. (1971) Principles of Paleontology
- 9. Krishnan, M. S. (1982) Geology of India and Burma, CBS Publishers, Delhi
- 10. Wadia, D., (1973). Geology of India. Mcgraw Hill

The question paper pattern shall consist of three parts -

Part A – Compulsory – consisting of Objective/ Multiple Choice type – each carrying two marks

 $10 \ge 2 = 20$ marks

- Part B Short Answer Type Four questions to be answered out of six questions each carrying five marks 04 x 5 = 20 marks

2019/23

MIC2 Practical: MINERALOGY, CRYSTALLOGRAPHY and OPTICAL MINERALOGY (Credit: 1)

Practical

- Clinographic Projection of : Cube, Octahedron, Rhombdodecahedron, Zircon
- 2. Megascopic Study of the following minerals:
 - a. Non-silicates: Calcite, Gypsum, Talc, Fluorite, Apatite, Topaz, Corundum, Baryte, Kyanite, Haematite, Galena, Bauxite, Psilomelane, Garnet, Nepheline, Beryl, Andalusite, Sillimanite, Tourmaline, Magnetite, Pyrite, Chromite, Pyrolusite.
 - b. Silicates: Quartz, Orthoclase, Microcline, Plagioclase, Muscovite, Biotite, Hornblende, Tremolite, Actinolite, Hypersthene, Olivine
- 3. Microscopic studies of the following minerals:

Olivine, Augite, Hypersthene, Hornblende, Muscovite, Biotite, Microcline, Plagioclase, Quartz

Course Outcome

- · Gain basic knowledge of minerals and their properties
- Comprehend different mineral groups.
- Understand crystals and their properties.
- Comprehend the basics of Optics and its behavior within minerals.
- Understand classification of silicate mineral groups.

Suggested Reading:

- 1. Berry and Mason, (1961). Mineralogy. W. H. Freeman & Co.
- 2. Dana, E.S. and Foo, W.E., (2002). A Textbook of Mineralogy
- 3. Deer, W. A., Howie, R. A., & Zussman, J. (1992). An introduction to the rock-forming minerals (Vol. 696). London: Longman.

LIST OF SKILL ENHANCEMENT COURSES (SEC)

Rover Elinha

32

Seh h

Skill Enhancement Course (SEC)

• Course Title - Advance Spreadsheet Tools

Learning Objectives

The Learning Objectives of this course are as follows:

- · To enable the students to use Excel for advanced data analysis
- To equip the students to with automation skills on excel
- · To enable the students to use excel for informed decision making.

Learning outcomes

The Learning Outcomes of this course are as follows:

- By studying this course, students will be able to make meaningful representations of data in the form of charts and pivot tables.
- By studying this course, students will be able to draw analysis on data using spreadsheets and use interpretation to make decisions.
- By studying this course, students will be able to generate word documents with appropriate formatting, layout, proofing.
- By studying this course, students will be able to manage data for generating queries, forms and reports in a database.

SYLLABUS

Unit 1: Excel Advanced Techniques

Templates, Efficiency, and Risk (Standard Deviation, Variance, and Coefficient of Variation), Data Validation; *Functions and Power functions, Array Formulae (Frequency Distribution, mode.mult, mode.sngl), Tables, Advanced Range Names, What-if-analysis: Goal-seek, Data tables, and Scenario Manager; Data analysis ToolPak: Descriptive Statistics, Moving averages, Histogram, Covariance, correlation, and Regression analysis (only for projection); solver add in. Problem Solving using Solver (optimal product mix, workforce scheduling, transportation, capital budgeting, financial planning), Integrating excel with other tools: MS word, outlook, PowerPoint, Access, Power BI.

Unit 2: Excel Interactivity and Automation

Index and Match, Offset, Dynamic Charting, Database functions, Text functions, and Error functions: IfError, IsError, Aggregate, Circular Reference, Formula Auditing, Floating-Point Errors, Form Controls (Button, Combo, Check box, Spinner, List, Option), Visual Basic (only basic). Recording Macros, Absolute and relative macros, editing macros, Use of spinner buttons and command buttons; Sub Procedure, Function Procedure (creating New Functions); Working with Loops: Do_while loop, For_Next loop; Creating User Forms: Message Box, Input Box; If_Then_Else.

Unit 3: Introduction to VBA

Conditional Formatting, Charts that Inspire (Waterfall, Column, Line, Combo, Thermometer, Scatter, Histogram) Sheers, Sparklines, Graphics Tricks and Techniques, Worksheet Automation using Macros: Absolute and relative macros, editing macros, Creating new functions using macros, Use of spinner buttons and command buttons.

Sth h

Page 3 of 44

Unit 4: Data Analysis and Decision-Making

Working with External Data, Advanced Uses of PivotTables, PowerPivot, Reporting with PowerPivot, Power query, Dashboard, Creating a spreadsheet in the area of: Loan and Lease statement; Ratio Analysis; Payroll Accounting; Capital Budgeting (NPV & IRR), Portfolio Management, Breakeven analysis, and Sensitivity analysis; Operations Management: Constraint, Forecasting & Trend Analysis optimization, Assignment Problems; Depreciation Accounting (Single Method); Graphical representation of data; Frequency distribution and its statistical parameters; Correlation and Regression Analysis

Essential/recommended readings

- · Excel 2016 Power Programming with VBA, Michael Alexander, Dick Kusleika, Wiley.
- Financial Analysis and Modelling Using Excel and VBA, Chandan Sengupta, Second Edition, Wiley Student Edition.
- MS Excel 2016, Data Analysis & Business Modelling, Wayne Winston, PHI.

Suggestive readings

- Microsoft Excel 2016 Data Analysis and Business Modelling Paperback 1 May
- 2017 Wayne L. Winston, Microsoft Press.
- Microsoft Excel Practical Formulae: From Basic Data Analysis to Advanced
- Formulae
- Manipulation Diane Griffiths.

leth

Course Title - Basic IT Tools

Learning Objectives

The Learning Objectives of this course are as follows:

- To enable students develop IT skills that are a pre-requisite in today's work environment.
- To equip them with basic computing skills that will enhance their employability in general.
- To enable the student to analyse and present information in a meaningful manner.

Learning outcomes

The Learning Outcomes of this course are as follows:

- By studying this course, students will be able to use word-processor to generate
- documents with appropriate formatting, layout, review and referencing. By studying this course, students will be able to manage data in worksheets and
- workbooks and analyze it using spreadsheet functions and inbuilt formulas.
- By studying this course, students will be able to draw analysis on data using •
- spreadsheets to make decisions.
- By studying this course, students will be able to make meaningful representations of
- data in the form of charts and pivot tables.
- By studying this course, students will be able to manage data in database tables and use
- the same for generating queries, forms and reports.

SYLLABUS

Course Contents:

Unit 1: Introduction to Spreadsheets

Spreadsheets: Concept of worksheets and workbooks, creating, opening, closing and saving workbooks, moving, copying, inserting, deleting and renaming worksheets, working with multiple worksheets and multiple workbooks, controlling worksheet views, naming cells using name box, name create and name define; Exchanging data using clipboard, object linking and

embedding; Printing and Protecting worksheets: Adjusting margins, creating headers and footers, setting page breaks, changing orientation, creating portable documents and printing data and formulae; Implementing file level security and protecting data within the worksheet; Understanding absolute, relative and mixed referencing in formulas, referencing cells in other worksheets and workbooks, correcting common formula errors, working with inbuilt function categories like mathematical, statistical, text, lookup, information, logical, database, date and time and basic financial functions.

Unit 2: Data Analysis in Spreadsheets

Consolidating worksheets and workbooks using formulae and data consolidate command; Choosing a chart type, understanding data points and data series, editing and formatting chart elements, and creating sparkline graphics, Analysing data using pivot tables: Creating, formatting and modifying a pivot table, sorting, filtering and grouping items, creating calculated field and calculated item, creating pivot table charts, producing a report with pivot tables. Introduction to recording and execution of macros.

oz & in he

both h

Unit 3: Word Processing

Introduction: Creating and saving your document, displaying different views, working with styles and character formatting, working with paragraph formatting techniques using indents, tabs, alignment, spacing, bullets and numbering and creating borders; Page setup and sections: Setting page margins, orientation, headers and footers, end notes and foot notes, creating section breaks and page borders; Working with tables: Creating tables, modifying table layout and design, sorting, inserting graphics in a table, table math, converting text to table and vice versa; Create newspaper columns, indexes and table of contents, Spell check your document using inbuilt and custom dictionaries, checking grammar and style, using thesaurus and finding and replacing text; Create bookmarks, captions and cross referencing, adding hyperlinks, adding sources and compiling and bibliography; Mail merge: Creating and editing your main document and data source, sorting and filtering merged documents and using merge instructions like ask, fill-in and if-then-else; Linking and embedding to keep things together.

Unit 4: Databases

Introduction to Database Development: Database Terminology, Objects, Creating Tables, working with fields, understanding Data types, Changing table design, Assigning Field Properties, Setting Primary Keys, using field validation and record validation rules, Indexing, working with multiple tables, Relationships & Integrity Rules, Join Properties, Record manipulation, Sorting & Filtering; Select data with queries: Creating Query by design & by wizard (Select, Make Table, Append, Delete, Cross Tab, Update, Parameterized Query, Find Duplicate and Find Unmatched), Creating multi table queries, creating & working with table joins. Using operators & expressions: Creating simple & advance criteria; Working with forms: Creating Basic forms, working with bound, unbound and calculated controls, understanding property sheet, Working with Data on Forms: Changing Layout, creating Basic Reports, Creating Header & Footer, Placing Controls on reports, sorting & grouping, Creating Sub reports.

Essential/recommended readings

- Swinford, E., Dodge, M., Couch, A., Melton, B. A. (2013). Microsoft Office Professional-2013. United States: O'Reilly Media.
- Wang, W. (2018). Office 2019 For Dummies. United States: Wiley. Microsoft Lambert, J. (2019). Microsoft Word 2019 Step by Step. United States: Pearson Education.

Suggestive readings

· Jelen, B. (2013). Excel 2013 Charts and Graphs. United Kingdom: Que.

- Alexander, M., Jelen, B. (2013). Excel 2013 Pivot Table Data Crunching. United
- Kingdom: Pearson Education.

• Course Title – Beginners Course to Calligraphy

Learning Objectives

The Learning Objectives of this course are as follows:

- To teach students the art of Calligraphy.
- To make students better at handwriting and embellish the scripts.
- To help the students communicate with creativity.

Learning outcomes

The Learning Outcomes of this course are as follows:

- Students will be skilled in calligraphy scripts.
- Learning flourishing will help to develop good writing.
- Practice sessions will further a project at the end of semester.
- Will induce skills to set up a business, too.

SYLLABUS

Unit 1: Introduction to Calligraphy

- Definition, History of calligraphy, Calligraphy at the Global level, Types of Calligraphy: Classical Calligraphy & Modern Calligraphy
- Practice Sessions: Introducing students to Calligraphy and its types through images, videos and animations.

Unit 2: Introduction to the Writing tools

- Tool Kit, Different Types of Pens, Different Types of Nibs, Different Types of Brushes, Different Types of Inks
- Practice Sessions: Display of Writing items, Discussion on the usage of different types of pens, nibs and brushes through hands-on activities

Unit 3: Foundation to Calligraphy

- How to write letters?, Majuscules, Miniscules, Numbers, Learning Strokes, Sans SerifB- point, Celtic, Italian Script, Roman Script, Gothic Script
- Practice Sessions: Learning and practicing strokes- Upstroke, Downstroke, Overturn, Underturn, Compound curve, Oval, Ascending loop
- Hands-on activities and Assessment on Sans Serif B-point, Celtic, Italian Script, Roman Script, Gothic Script, Flourishing

Essential/recommended readings

- Suepsuan, P. A. (2021). Start Calligraphy The Right way to write: Learn Calligraphy The Complete Book - Modern Calligraphy Pen For Beginners, Learning Resources
 Step By Step Number Line, Mastering Modern Calligraphy. Independently published.

Course Title – Big Data Analytics

Learning Objectives

The Learning Objectives of this course are as follows:

- To Understand the Big Data Platform and its Uses
- Provide an overview of Apache Hadoop
- Provide HDFS Concepts and Interfacing with HDFS.
- Provide hands on Hadoop Eco System
- To understand spark framework

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to
- identify Big Data and its Business Implications.
- After studying this course, students will be able to list the components of Hadoop and Hadoop Eco-System.
- After studying this course, students will be able to access and process data on distributed file system,
- After studying this course, students will be able to manage job execution in Hadoop environment.
- After studying this course, students will be able to develop Big Data Solutions using Hadoop Eco System.

SYLLABUS

Unit 1: Fundamentals of Big Data Analysis

Data Storage and Analysis, Characteristics of Big Data, Big Data Analytics, Typical Analytical Architecture, Requirement for new analytical architecture, Challenges in Big Data Analytics - Need of big data frameworks

Unit 2: Hadoop Framework

Hadoop, Requirement of Hadoop Framework, Design principle of Hadoop -Comparison with other system, Hadoop Components - Hadoop 1 vs Hadoop 2, Hadoop Daemon's - HDFSCommands, Map Reduce Programming: I/O formats, Map side join, Reduce Side Join, Secondary sorting, Pipelining Map Reduce jobs

Unit 3: HDFS (Hadoop Distributed File System)

The Design of HDFS, HDFS Concepts, Command Line Interface, Hadoop file system interfaces, Data flow, Data Ingest with Flume and Scoop and Hadoop archives, Hadoop I/O: Compression, Serialization, Avro and File-Based Data structures.

Unit 4: Spark Framework and Data Analysis with Spark Shell

Introduction to GPU Computing, CUDA Programming Model, CUDA API, Simple Matrix, Multiplication in CUDA, CUDA Memory Model, Shared Memory Matrix Multiplication, Additional CUDA API Features. Writing Spark Application - Spark Programming in Scala, Python, R, Java - Application Execution.

N

lith .

Practical Exercises

- Downloading and installing Hadoop.
- Understanding different Hadoop modes. Startup scripts, Configuration files.
- Hadoop Implementation of file management tasks, such as Adding files and directories, retrieving files and Deleting files.
- Run a basic word count Map reduce program to understand map reduce paradigm: To count words in a given file, to view the output file, and to calculate the execution time.
- Map Reduce Program to analyse time-temperature statistics and generate report with max/min temperature.
- Implement of Matrix Multiplication with Hadoop Map Reduce.
- · Implementation of K-means clustering using Map Reduce.
- · To study and implement basic functions and commands in R programming.
- To build Word cloud, a text mining method using R for easy to understand and visualization than a table data.
- To implement clustering program using R programming

Essential/recommended readings

- · Seema Acharya, Subhasini Chellappan, "Big Data Analytics" Wiley 2015.
- Mike Frampton, "Mastering Apache Spark", Packt Publishing, 2015.
- Tom White, "Hadoop: TheDefinitiveGuide", O'Reilly, 4thEdition, 2015.
- Nick Pentreath, Machine Learning with Spark, PacktPublishing,2015.
- Mohammed Guller, Big Data Analytics with Spark, Apress, 2015.
- Donald Miner, Adam Shook, "Map Reduce Design Pattern", O'Reilly, 2012

likh

Course Title – Business Communication

Learning Objectives

The Learning Objectives of this course are as follows:

- To train students to enhance written as well as oral communication in the corporate world.
- To help students in understanding the principles and techniques of business communication.
- To understand the use of electronic media for communication.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to explain the need for communication in management.
- After studying this course, students will be able to appreciate the need of effective writing for communication.
- After studying this course, students will be able to demonstrate the skill of effective report writing and summarizing annual reports.
- After studying this course, students will be able to analyse business correspondence and e-correspondence.
- After studying this course, students will be able to appreciate oral presentations.

SYLLABUS

Unit 1: Introduction to the essentials of Business Communication

Meaning, process and functions. Need and importance. Medium: verbal & non-verbal communication. Channels: formal & informal. Levels of communication. Direction of communication: downward, upward, lateral, & diagonal. Effective communication: difficulties/barriers and solutions. Interactive and non-interactive techniques of communication. Listening as a tool of communication, Guidelines for effective listening.

Unit 2: Effective Writing

Guidelines for clear writing. References, bibliographical research tools. Citing methods, footnotes, discussion footnotes. Use of library and internet for collection, classification and interpretation of data and information.

Unit 3: Report Writing

Types of reports. Formal report: components and purpose. Organising information: outlining & numbering sections, section headings, sub-headings, & presentation. Writing reports on field work/visits to industries, business concerns. Summarising annual reports of companies: purpose, structure and principles. Drafting minutes.

Unit 4: Business Correspondence and E-Correspondence

Need and importance of business letters. Office memorandum, office circulars, notices and orders. Technology for communication. Effective IT communication tools. Electronic mail: advantages, safety and smartness in email. E-mail etiquettes.

Unit 5: Spoken English and Oral Presentation

Effective negotiation: elements, process and general guidelines. Telephonic conversation. Conducting & facing interviews. Conducting & participating in group decisions. Making presentations: content and organising. Features of a good presentation. Delivering a presentation.

Sunn

Page 10 of 44

Practical Exercises:

The learners are required to:

- · learn how to summarise annual reports of companies.
- prepare presentations using power-point.
- · participate in Group discussions and mock interviews.
- · smartly draft business emails.

Essential/recommended readings

- C.B.Gupta (2019). Essentials of Business Communication, Sultan Chand & Sons.
- Kaul, A. Effective Business Communication, 2nd ed. PHI learning

- · Meyer C, Dev(2021). Communicating for Results, Oxford University Press
- Quintanilla, Kelly M, (2021), Business and Professional Communication, 4e, Sage Textbook
- R. C. Bhatia (2008), Business Communication, Ane Books Pvt Ltd, New Delhi.

- Raman and Singh(2012). Business Communication. Oxford University Press
- · Scot, O., Contemporary Business Communication. Biztantra, New Delhi.

July !

• Course Title - Communication in Everyday Life

Learning Objectives

The Learning Objectives of this course are as follows:

- To lay down a basic foundation for basic communication that is a part of a student's everyday life.
- To inculcate the fundamentals of communication with the aim to enhance listening, speaking and writing skills.
- To hone practical skills that can be used in day-to-day affairs.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to improve mediation skills.
- After studying this course, students will be able to building human relationships.
- · After studying this course, students will be able to foster societal understanding
- &develop an independent perspective.
- After studying this course, students will be able to enhance social Communication skills of students.

SYLLABUS

UNTT 1

Theory of Communication

- Meaning, Features, Uses, Cycle, Feedback, Advantages
- Barriers
- 7 C's of Communication

UNIT 2

Listening Skills

- Netiouettes
 - Audio-book Listening & Discussions
- Note-taking

UNIT 3

Speaking Skills

- Oral Presentation- Audio-Visual aids, Audience & Feedback, Delivery ofPresentation, Handling Questions
- Group Discussion- Culture & History, Current Affairs, Society-related
- Public Speaking- Public Speech, Extempore
- Interview- Personal, Conversational, Public

UNIT 4

- Reading Skills
 - Close Reading
 - Skimming
 - Scanning

UNIT 5

Writing Skills

- Summarising
- Paraphrasing
- Note-making
- Essays- Expository Essay, Descriptive Essay, Narrative Essay
- Letter Writing- Formal Letter, Informal Letter

Es ber ch

Course Title – Communication in Professional Life

Learning Objectives

The Learning Objectives of this course are as follows:

- To prepare the students for their upcoming professional fields.
- · To inculcate the fundamentals of professional and business communication.
- To learn aspects of global communication.
- To enhance employability skills of the learners by enabling them to write effective resumes and face interviews with confidence

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to improve presentation skills to be learnt by effective use of verbal and non-verbal communication for the professional field.
- After studying this course, students will be able to acquire practical employability skills to be disseminated through focused sessions on practical employable knowledge.
- After studying this course, students will be able to enhance professional communication.
- After studying this course, students will be able to improve persuasion and negotiation skills which will be useful for the professional field.

UNIT 1

- Theory of Business Communication
- Introduction
- What is Business Communication?
- Language of Business Communication
- Cultural Components Cross-Cultural Communication, Cultural Shock, Stereotyping, Ethnocentrism
- Miscommunication & Effective Communication

UNIT 2

Listening Skills

- Netiquettes
- Audio-book Listening & Discussions
- Note-taking

UNIT 3

Speaking Skills

- Presentation Skills- Oral Presentation, Ppt. Preparation, Ppt. Presentation
- Group Discussion
- Talks- Domain-specific, Ted-Talks, Business Meets, Motivational Talks
- Telephonic Skills
- Persuasion Skills
- Meeting & Negotiation
- Interview- Promotion Interview, Job Interview, Business Interview
- Functions and activities of PR

Jelly .~

Page 14 of 44

UNIT 4

Writing Skills

- Summarising & Paraphrasing
- Job-Oriented Skills- CV, Resume & Bio- Data, Job Application Letter
- Documentation
- Advertisements & Invitation
- Letter Writing- Applications, Business Letters
- Report- Analytical Report, Project Report
- Digital Communication in Social Space- Social Media Posts (Twitter, Facebook), Blog Writing, Review Writing
- Advertisement/Invitation/Poster Designing- Canva/MS Word/Coral
- Memo, Office Order, Minutes
- Making Online Academic/Work Profile- LinkedIn

Course Title - Communication in Professional Life

Learning Objectives

The Learning Objectives of this course are as follows:

- To build creative writing skills of students in the main inodes of creative writing vizpoetry, fiction (novel, short stories), non-fiction (life narratives, autobiographies andbiographies) and drama.
- To inculcate practical skills in students by mapping their creative talent which bebeneficial for employability too.
- To perform hands-on-activities to students to develop their creative skills throughpractical sessions.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to be sensitive to the texture ofliterary language.
- · After studying this course, students will be able to develop craft in creative writing.
- After studying this course, students will be able to develop sense of expressingthemselves through poetry/short story/biography.
- After studying this course, students will be able to induce an understanding of therelationship between an individual and society.
- After studying this course, students will be able to get into different fields and pursue versatile career opportunities.
- After studying this course, students will be able to develop an understanding of theatre and performance through drama will also help them to develop observatoryand behavioural skills.
- After studying this course, students will be able to develop a critical thought processand a knack in putting it in words. Students may also utilise the learnings of proofreading and editing for their academic and professional growth.
- After studying this course, students will be able to go for publishing their own work.
- · After studying this course, students will be able to write a book and submit.

SYLLABUS

UNIT 1

- Introduction to Creative Writing- Meaning, Importance
- Imagination & Writing- Peer-interaction, Activities on Imagination
- Tropes, Motifs and Figures- Learning tropes, motifs and figures through videos, Discussion on the findings
- Craft of Writing- Figure of Speech, Word Play, Character Creation
- Character Creation- Dialogue Enaction, Learning Characters through discussion on famous writings, Character Analysis, Writing activities on creating different types ofcharacters (gender/social background/ethnicity etc.)

UNIT 2

- Close Reading
- Analysis and Interpretation- Reading different works in Literature, Discussionin small groups, Practice Writing Session
- Proofreading & Editing- Practice sessions on Proofreading & Editing of different types of writing

Rav

Jeller

UNIT 3

- · Steps of Creative Writing- Pre-Writing, Writing, Post-Writing/Final Draft
- · Types of Creative Writing- Poetry, Fiction, Non-Fiction (Life Narratives), Drama
- Creative Writing & Media- Film Review, Book Review, Other Writings in Media, Submission, Publication
- Learning to write Poetry- Reading & understanding Poetry; Practising tone, rhyme, metre, verses; Writing sessions
- Learning to write Fiction- Reading & understanding Fiction; Practicing different elements of fiction (Short story, Novella, Novel); Writing sessions
- Learning to write Non-Fiction- Reading & understanding Non-Fiction (Biographies & Autobiographies); Practicing different elements of non-fiction; Writing sessions
- Learning to write Drama- Reading & understanding Drama; Practicing different elements (plot, character, climax, verbal & non-verbal cues) of Drama; Writing sessions
- · Submission & Publication (in Print & Digital) Discussions over how & where to

submit and publish (online/offline), Hands-on activities

Suggested Readings

Course Title – Digital Marketing

Learning Objectives

The Learning Objectives of this course are as follows:

- To acquaint the students with the knowledge of growing integration between the traditional and digital marketing concepts and practices in the digital era.
- To familiarize the students with the tools and techniques used by the digital marketers for driving the marketing decisions to attain marketing objectives.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to understand the concept of digital marketing and its integration with traditional marketing.
- After studying this course, students will be able to understand customer value journey in digital context and behaviour of online consumers.
- After studying this course, students will be able to understand email, content and social media marketing and apply the learnings to create digital media campaigns.
- After studying this course, students will be able to examine various tactics for enhancing a website's position and ranking with search engines.
- After studying this course, students will be able to leverage the digital strategies to gain competitive advantage for business and career.

SYLLABUS

Unit 1: Marketing in the Digital World

Digital marketing: Concept, Features, Difference between traditional and digital marketing, Moving from traditional to digital Marketing; c

Digital Marketing Channels: Intent Based- SEO, Search Advertising; Brand Based-Display Advertising; Community Based-Social Media Marketing; Others-Affiliate, Email, Content, Mobile.

Customer Value Journey: 5As Framework; The Ozone 03 Concept Key; Traits of online consumer

Unit 2: Content and Email Marketing

Content Marketing: Step-by-step Content Marketing Developing a content marketing strategy Email Marketing: Types of Emails in email marketing, Email Marketing best practices

Unit 3: Social Media Marketing and Display Marketing

Social Media Marketing: Building Successful Social Media strategy; Social Media MarketingChannels; Facebook, Linkedln, YouTube (Concepts and strategies)

Display Advertising: Working of Display Advertising; Benefits and challenges; Overview of Display ad Process.; Define- Customer, Publisher, Objectives; Format-Budget, Media, Ad Formats, Ad Copy.

Rary Dila

bu

Page 18 of 44

Unit 4 Search Engine Marketing

Introduction of SEM: Working of Search Engine; SERP Positioning; online search behaviour, DMI's 5P Customer Search Insights Model. Search Engine Optimization: Overview of SEO Process; Goal Setting-Types.

On-Page Optimization: Keyword Research, SEO Process -Site Structure, Content, Technical Mechanics, Headings, Image & Alt text, Social Sharing, Sitemaps, Technical Aspects- Compatibility, Structured Data Markup.

Off Page Optimisation: Link Formats, Link Building, Content Marketing, Social Sharing; Black and White Hat Techniques

Search Advertising: Overview of PPC Process; Benefits of Paid Search; Basis of Ranking; Goal Setting-Objectives; Account Setting-Creation of Google Ads, Campaign architecture, Campaign setup, Targeting, Bid Strategy, Delivery, Ad Scheduling, Ad Rotation, Keyword Selection; Ad Copy composition, Ad Extension

Course Title - Graphic Design and Animation

Learning Objectives

The Learning Objectives of this course are as follows:

- To introduce the students to the skill of animation.
- To learn about the application of 2D and 3D animation.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to understand the importance of animation and graphics design
- After studying this course, students will be able to learn graphics design in 2D and 3D animation.
- After studying this course, students will be able to learn the application of graphics design in 2D and 3D animation in advertising and other areas.

SYLLABUS

Unit 1:2D Animation

Introduction to 2D Animation: Introduction to 2D Animation, Drawing concept, Colour theory & basics, Incorporating sound into 2D animation

Layout & Designing: Basic of sketching, still life and assignment of basic drawing, Composition of basic elements, Work in different media, such as drawing, collage, and painting, Explore the relationship between elements and principal, Pixel and resolution: Vector and Bitmap Graphics.Graphics and advertising (Practical)

- Creating Digital Layout
- Professional image editing (PHOTOSHOP)
- Advertising and relevant case, Graphics and illustration (Corel Draw, Paint)
- Vector Composition, 2D animation (Macromedia Flash)

Broadcast Design (Practical)

- Working with visual images
- Story Boarding
- Titles and Credit Making
- Stop motion animation

Production / Post-Production (Practical)

- Paint & animate (scanning, tracing, ink & Paint)
- Understanding Background composition
- Basic Understanding of 2D animation and technique
- Animation with flash, Portfolio Making

Sinta leth

Unit 2: 3D Animation

3D Modeling: Introduction to 3D space in Blender, Introduction to Modeling Techniques, Inorganic Modeling, Organic Modeling

3D Shading: Use of Materials & Shader, Shader and Texture Editing, Shading Organic Model, Shading In-Organic Models

3D Animation and Rigging (Practical)

- Introduction to 3D Animation •
- Create, Edit and working with Animation Graph, Rigging using Blender
- Setting up controllers for joints
- Simple Skeleton structure with proper joint orientation

3D Lighting and Rendering (Practical)

- Understanding Lighting in Cycles
- Direct and Indirect Lighting
- Light Linking, Final Composition
- Creating composition and Light with the Shaded Models

3D Dynamics (Practical)

Introduction to Dynamics, Active and Passive Bodies Creating basic Simulation and collusion using Rigid body Cloth Simulation, Simulation of Brick wall collusion Introduction to Fluid Effects, Creating fluid simulation

Project

(Digital Imaging)

- Design Print advertisement for Service •
- Design Print advertisement for Product
- Design Print advertisement an Event
- Design Print advertisement on Social Awareness
- Design a collage with a social message

2D Animation

- Drawing fundamentals using lines
- Sketching of cartoon characters
- 2D Logo designing
- Storyboarding of a 30 seconds film
- Portfolio making of an organization

3D Animation

- Exploring the Interface of 3D application & Basic Modeling
- Create different types of Materials and create a Shading
- Create a simple walk cycle using the character rigs
- Create a composition and Light set up
- Create a Fluid simulation & rendering

Suggested Readings:

- The Illusion of Life: Disney Animation, Ollie Johnston and Frank Thomas, Disney Editions.
- Blender Production Creating Short Animations from Start to Finish, Roland Hess, Routledge.
- Animating with Blender: Creating Short Animations from Start to Finish, Roland

Denta Br lyth.

Hess, Focal Press

- Simplified Drawing for Planning Animation, Wayne Gilbert, Anamie Entertainment Ltd.
- Getting Started in 3D with Maya, Adam Watkins, Routledge,
- Creating Characters with Personality: For Film, TV, Animation, Video Games, and Graphic Novels, Tom Bancroft, Watson-Guptill
- Force: Dynamic Life Drawing for Animators, Mike Mattesi, Focal Press

Note: Learners are advised to use the latest edition of readings.

Course Title – Introduction to Cloud Computing (AWS)

Learning Objectives

The Learning Objectives of this course are as follows:

- To learn about cloud computing through Amazon Web Services (AWS) platform.
- To learn about AWS cloud concepts, services, security and architecture to build an
 application.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to Understanding cloud computing platform
- After studying this course, students will be able to differentiate between onpremises, hybrid-cloud, and all-in cloud
- After studying this course, students will be able to describe the basic global infrastructure of the AWS Cloud
- After studying this course, students will be able to understanding the core AWS services, including compute, network, databases, and storage.

SYLLABUS

Unit 1

Introduction to cloud computing, Creating AWS account, AWS Management Console, AWS Documentation overview, Availability Zones, AWS Global Infrastructure.

Unit 2

Compute in the Cloud Amazon EC2, instance types.

Unit 3

Storage and Databases: - Amazon Simple Storage Service (Amazon S3), Amazon Relational Database Service (Amazon RDS), Amazon DynamoDB.

Project

Create an AWS account and implement AWS cloud for deploying any application.

Suggested Sources

• Any free platform can be used, for example Amazon, Google, Azure etc.

Course Title - Personal Financial Planning

Learning Objectives

The Learning Objectives of this course are as follows:

- To familiarize students with different aspects of personal financial planning like savings, investment, taxation, insurance, and retirement planning
- To develop the necessary knowledge and skills for effective financial planning.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to understand the meaning and appreciate the relevance of financial planning.
- After studying this course, students will be able to understand the concept of investment planning and its methods.
- After studying this course, students will be able to examine the scope and ways of personal tax planning.
- After studying this course, students will be able to analyse insurance planning andits relevance.
- After studying this course, students will be able to develop insight into retirement planning and its relevance.

SYLLABUS

Unit 1: Introduction to Financial Planning:

Financial goals, steps in financial planning, budgeting incomes and payments, time value of money. Introduction to savings, benefits of savings, management of spending & financial discipline, Setting alerts and maintaining sufficient funds for fixed commitments.

Unit 2: Investment Planning:

Process and objectives of investment, concept and measurement of return & risk for various asset classes, measurement of portfolio risk and return, diversification & portfolio formation. Gold bond; Real estate; Investment in greenfield and brownfield Projects; Investment in fixed income instruments, financial derivatives & commodity market in India. Mutual fund schemes; International investment avenues. Currency derivatives and digital currency.

Unit 3: Personal Tax Planning:

Tax structure in India for personal taxation, Scope of personal tax planning, exemptions and deductions available to individuals under different heads of income and gross total income. Comparison of benefits - Special provision u/s 115 BAC vis-a-vis General provisions of the Income-tax Act, 1961, tax avoidance versus tax evasion.

Unit 4: Insurance Planning:

Need for insurance. Life insurance, health insurance, property insurance, credit life insurance and professional liability insurance.

ben h Plika

Unit 5: Retirement Benefits Planning:

Retirement planning goals, process of retirement planning, Pension plans available in India, Reverse mortgage, Estate planning.

Practical Exercises:

The learners are required to:

- · Perform electronic fund transfers through net banking and UPI.
- Identify certain recent Ponzi schemes in the market.
- Prepare tax planning for a hypothetical individual.

Suggested Readings:

- Halan, M. "Let's Talk Money: You've Worked Hard for It, Now Make It Work for You" Harper Collins Publishers, New York.

Course Title - Personality Development and Communication

Learning Objectives

The Learning Objectives of this course are as follows:

- To develop inter personal and effective communication skills.
- To develop problem solving skills and understand its influence on behaviour and attitudes of individuals.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to understand the importance of oral and written communication in day-to-day working of the organisation.
- After studying this course, students will be able to develop inter personal skills and problem-solving skills.
- After studying this course, students will be able to understand the role of body language in effective communication.

SYLLABUS

Unit 1

Introduction, need for Communication, Process of Communication, Written and Verbal Communication, Visual communication, Signs, Signals and Symbols, Silence as a Mode of Communication, Inter-cultural, Intra-cultural, Cross-cultural and International communication, Communication through Questionnaires, Business Letter Writing, Electronic Communication.

Unit 2

Business Cases and Presentations, Letters within the Organizations, Letters from Top Management, Circulars and Memos, Business Presentations to Customers and other stakeholders, presenting a Positive Image through Verbal and Non-verbal Cues, Preparing andDelivering the Presentations, Use of Audio-visual Aids, Report Writing.

Unit 3

Barriers to Communication, Improving Communication Skills, Preparation of Promotional Material, Non-verbal communication, Body language, Postures and gestures, Value of time, Organizational body language, Importance of Listening, Emotional Intelligence. Working individually and in a team, Leadership skills, Leadership Lessons, Team work and Team building, Feedback, Feed forward Interpersonal skills - Delegation, Humour, Trust, Expectations, Values, Status, Compatibility and their role inbuilding team - work Conflict Management - Types of conflicts, how to cope with conflict.

Unit 4

Negotiation Skills, Types of Negotiation, Negotiation Strategies, Selling skills - Selling to customers, Selling to Superiors Selling to peer groups, team mates and subordinates, Conceptual selling, Strategic selling, Selling skills - Body language.

Course Title – Prospecting E-waste for Sustainability

Learning Objectives

The Learning Objectives of this course are as follows:

- To provide in-depth knowledge on the effective mechanisms to regulate the generation, collection, and storage of e-waste
- To gain insights into the internationally/nationally acceptable methods of transport, import, and export of e-waste within and between countries
- To develop a holistic view on recycling, treatment, and disposal of e-waste and related legislative rules.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to holistically analyze the environmental impacts of e-waste
- After studying this course, students will be able to apply the skills and various concepts for sustainable management of e-waste
- After studying this course, students will be able to decipher the role of various national and international regulations for e-waste management
- After studying this course, students will be able to provide specific recommendations for improved methods for handling e-waste at different stages such as generation, collection, storage, transport, and recycling.

SYLLABUS

Practical/Hands-on Exercises

- Identification of e-waste and its types
- Composition of e-waste and segregation- from the material provided
- Dismantling of e-waste and handling process
- Visit a nearby e-waste handling facility
- Environmental protection laws and producer's responsibility for e-wastemanagement Build an understanding of how regulatory mechanisms can be utilized in the management of e-waste in educational institutions.
- Discussion on plausible ways and implementation of e-waste reduction at the source Evaluation of the status of e-waste handling at your institution. Suggest potential solutions as per the existing norms of E-Waste (Management) Rules, 2016 and beyond.
- Estimate how recycling of e-waste in metro cities will go in sync with the circular economy
- Develop an understanding and itinerary of the process for procuring e-waste import permissions.
- Inventory of the e-waste disposal mechanisms.
- Study the evolution of e-waste management rules and its implementation- Hazardous Waste Rules, 2008, E-waste (Management and Handling) Rules, 2011; and E-Waste (Management) Rules, 2016
- Study the international laws on e-waste management- the international legislations: The Basel Convention; The Bamako Convention; The Rotterdam Convention;
- Waste Electrical and Electronic Equipment (WEEE) Directive in the European Union; Restrictions of Hazardous Substances (RoHS) Directive

Teaching and learning interface for practical skills:

To impart training on technical and analytical skills related to the course objectives, a wide range of learning methods will be used, including (a) laboratory practicals; (b) field-work exercises; (c)customized exercises based on available data; (d) survey analyses; and (e) developing case studies; (f) demonstration and critical analyses; and (h) experiential learning individually and collectively.

Course Title - Public Speaking in English Language and Leadership

Learning Objectives

The Learning Objectives of this course are as follows:

- To impart leadership skills to students along with adequate communication skills tocurate strong leaders in the emerging social, political and corporate world.
- To create leaders with ethics and resilience in industry-based fields as well as social
 fields.
- To allow students to realise their leadership skills and curate them through a hand-on practical approach which will be helpful in generating employable skills for them.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to learn effective communication through Public Speaking will instill leadership development among students.
- After studying this course, students will be able to lead in different fields at the undergraduate level, be responsible citizens and employ leadership skills in their future endeavours, too.
- After studying this course, students will be able to strengthen their critical mindset, help them being assertive and put forward constructive viewpoints employing the skills learnt in the practice sessions.

SYLLABUS

UNIT 1

- © Introduction to Effective Communication- Features, Advantages & Disadvantages
- Importance of Listening
- Oral communication- Meaning, Features & Importance
- Reading Public Speech- Reading documented speeches delivered in the past; Understanding the art of word play, vocabulary and putting thoughts into words

UNIT 2

- Public Speaking-
 - V What is Speech?, Overcoming Fear of Public Speaking, Language of Public Speech
 - V Drafting a Public Speech (Reading, research, writing, Fact check, Re-writing, Delivery)

Y' 3P's of Public Speaking (Preparation, Practice, Performance)

- S Rhetoric Skills, Art of Informative & Persuasive speaking, Concluding Speech with Power
- Types of Public Speaking-

S Physical & Online

S Political, Organisational, Educational & Motivational

S Ted Talks, Public Speaking in Media

- Listening in groups and Discussion-Listening famous speeches (from history & everyday life); Analysis of its elements & classroom discussion
- Writing Public speech- Classroom Practice Sessions

lith h

Page 30 of 44

UNIT 3

Leadership Skills- (2 hrs.)

- S Meaning, Features & Importance
- S Historical Overview
- S Leadership in Academic Life, Corporate Space, Public Life, Social Leadership and Political Leadership
- Leadership & Innovations- (2 hrs.)
 - S Audience analysis

S Audience Engagement & Leadership

S Influencing through Leadership

- Execution & Delivery of Public Speech- Learning rhetorics through speeches in the form of Audio/ Video; Learning Body Language & Paralanguage through ICT
- Developing leadership competence through Public Speaking- Intra-class Speech Competitions; Extempore; Group Discussion

UNIT 4

- Importance of Public Speaking in developing Leadership Skills
- Ethics in Public Speaking & Leadership
- Mock Parliament/MUNs
- Workshop

Course Title – Statiscal Software Package Learning Objectives

The Learning Objectives of this course are as follows:

- To familiarize students with data analysis using a statistical software package like SPSS or any other equivalent.
- · To provide skills for research analysis and increase employability.
- To lay a foundation for advance data analysis work and higher education.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to understand basic functions of statistical software package for managing variables and generate descriptive statistics to describe the data and analyze data through graphs and charts.
- · After studying this course, students will be able to test differences in sample means.
- After studying this course, students will be able to identify relationships between variables and develop models for predicting dependent variables on the basis of independent variables.
- After studying this course, students will be able to understand data structures and identify clusters in data.
- After studying this course, students will be able to identify principal components that are relevant from a host of variables.

SYLLABUS

Unit 1: Getting started with the Software

Introduction: Data Entry, Storing and Retrieving Files, Generating New Variables; Managing Data - Listing cases, replacing missing values, computing new variables, recoding variables, selecting cases, sorting cases, merging files, Graphs - Creating and editing graphs and charts; Descriptive Statistics Procedures: Frequencies, Descriptive, Explore, Cross Tabulation.

Unit 2: Hypothesis Testing for Means

T-tests: One sample test, Independent samples and paired samples t-test; ANOVA - One- way analysis of variance with post hoc analysis, Two-way analysis of variance.

Unit 3: Testing for Association between Variables

Chi-square Test of Independence; Bivariate Correlation Analysis: Simple Scatter Plot; Correlation Coefficient: Pearson, Spearman Rho and Kendall Tau Coefficient. Factor analysis.

Unit 4: Regression Analysis

Linear Regression: Simple Linear Regression, Multiple regression analysis with matrix scatterplot. Multiple Regression: Standard (Enter) and Stepwise Method. Binary Logistic Regression.

Corse Title – Sustainable Ecotourism and Enterpreneurship Learning Objectives

÷ •

The Learning Objectives of this course are as follows:

- To train students in concepts and principles of sustainable ecotourism leading to a new generation of entrepreneurs
- To inculcate field-based practical skills in translating ecological systems into wealth generation while conserving natural resources
- To transform local biological wealth into a hub of global attraction and generate a scientific basis of Indian traditional knowledge

Learning outcomes

The Learning Outcomes of this course are as follows:

- · After studying this course, students will be able to develop next-generation ecological entrepreneurs
- After studying this course, students will be able to evolve eco-literate society by integrating marketbased instruments with eco-cultural knowledge of traditional societies
- After studying this course, students will be able to practice ecological knowledge for wealth generation, environmental conservation, and popularization of Indian traditional knowledge

SYLLABUS

Practical/Hands-on Exercise

- · Assess the current state of ecotourism in little-known/explored areas and examine ecotourism potential
- Field surveys to identify the existing locations having ecological, wildlife, scenic, and ethnic potential for ecotourism and analyze existing prevalent eco-practices having the potential to integrate with ecotourism programme
- Identify ten plant species having ecological, economic, and cultural significance as ecotourist attraction
- · Develop stories on the selected wild habitats to attract ecotourists from within and outside the country
- Identify suitable track and prepare a checklist of birds and animals with their stories for a diverse group of ecotourists
- Examine the current state of natural resources and develop suitable messages and appropriate media for educating different target groups
- Survey and identify the target group for ecotourism based on their age, education, economic and other criteria and evaluate their psychological barriers to ecotourism
- Conduct inventory of facility and analyze a preliminary competitive advantage over ecological attractions in the nearby area
- Analyze tourist spending patterns and track preferences for ecotourism attractions in nearby areas and add value to ecological, wildlife, and cultural attractions
- Survey attitude and perception of residents regarding ecotourism plan and analyze costs and benefitsof the sustainable ecotourism development programme using a demand-driven marketing approach
- · Develop messages, stories, and pictures to attract tourists and promote ecotourism in the target area
- Analyze basic elements of ecotourism, the special needs of ecotourists, develop trips and travel packages offering an array of experiences and predict the market trends
- Develop ecotourist activities for individuals, families, and groups and craft social media campaigns for the proposed ecotourism business
- Develop a plan for strategic alliances and partnerships with other projects/groups /organizations for public- private partnership in the proposed ecotourism programme.

Course Title – Visual Communication and Photography Learning Objectives

The Learning Objectives of this course are as follows:

- To synthesize a comprehensive view of principles involved in Visual Communication.
- To appreciate and express the cultural significance of photography as visual art and understand its evolution and purposes.
- To develop an awareness of compositional and organizational strategies for the
 effective deployment of formal elements of visual art.
- · To read visual texts with a deep knowledge of visual history and theory.
- To create an ability of situating the content and form of the visual representation of thematic context.

Learning outcomes

The Learning Outcomes of this course are as follows:

- After studying this course, students will be able to acquire knowledge of the
- culturaland historical importance of the visual medium.
- After studying this course, students will be able to explore the
- fundamentals and underlying theories of Visual Communication.
- After studying this course, students will be able to develop a thorough
- knowledge ofconcepts, and skills in creating photographs.
- After studying this course, students will be able to learn to identify and
- analyzesemiotics in photographs.
- After studying this course, students will be able to develop a craftsmanship in
- creating aesthetically pleasing photographs.

SYLLABUS

Unit 1: Historical Background and Basics of Visual Communication

Unit Description: The Unit I will give a brief history of the visual arts from the caveman to modern man. Skills of artistic schools of thought and Intertextuality in art in relation to culture.

Topics- Concept and History of Visual Communication, Human Eye and Visual Process, Visual culture and Information Education Communication, Theories of visual communication - Gestalt Theory of visual communication, Perceptual theory of Visual communication, Semiotics and cognitive approach in visuals

Unit II: Theories of Visual Communication

Unit Description: This unit will put emphasis on theories, semiotics and the study of signs. Through semiotic theories improve critical thinking skills, and learn to use semiotics to think logically and to analyze visual media in context of culture.

Topics: Fundamentals of Design: Definition. Approaches to Design, Centrality of Design, Elements of Design, Principles of Visual and other Sensory Perceptions. Colour psychology and theory (some aspects), Definition, Optical / Visual Illusions, etc., Various stages of design process, Learning skills to read signs and signifier in visuals for social messaging

Unit III: Photography as Visual Communication

Unit Description: This unit will provide skills to learn camera and lighting techniques. Topics: Introduction to photography, Camera - structure and function of camera,

2_

lul.

Page 36 of 44

Characteristics of light, Sources of Light-Nature, Artificial and Available, Lighting techniques-threepoint lighting, Exposure - focusing, aperture, shutter speed, Depth of field. , Kinds of light indoor and outdoor - Electronic flash and artificial lights, Light meters

Unit IV: Camera Compositions and Accessories

Unit Description: This unit will provide skills about camera accessories and designing aesthetically rich compositions.

Topics: Camera lenses and accessories, Basic shots, angle, and view, Composition, Role of photographic image in visual communication, Basics of photojournalism, photo-features, photo - essays, writing captions, visual storytelling.

Course Title - पटकथा लेखन

Course Objective

- पटकथा लेखन का परिचय कराना।
- विद्यार्थी की लेखन-क्षमता और भाषा-कौशल को बढ़ावा देना।
- विद्यार्थी की लेखन में रोजगार सम्बन्धी क्षेत्रों के लिए तैयार करना।

Course Learning Outcomes:

- पटकथा लेखन तथा उसके तकनीकी शब्दों से विद्यार्थी अवगत हो सकेगा।
- पटकथा लेखन की जानकारी मिलने के उपरान्त विद्यार्थी के लिए रोजगार की संभावनाएँ बनेंगी।
- विद्यार्थी भाषायी सम्प्रेषण को समझते हुए लेखन से सम्बन्धित विभिन्न पक्षों से अवगत हो सकेगा।
- विद्यार्थी में अभिव्यक्ति कौशल का विकास हो सकेगा।

SYLLABUS

यूनिट 1

- पटकथा लेखनः परिचय
- पटकथा के तत्व
- पटकथा के प्रकार
- पटकथा की शब्दावली

यूनिट 2

- पटकथा लेखन में शोध का महत्व
- चरित्र की निर्मिति और विकास
- एक दृश्य का लिखा जाना
- तीन अंक (थ्री एक्ट) और पाँच अंक (फाइव एक्ट) को समझना

Djuha in

Page 38 of 44

यूनिट 3

- वेबसीरीज के लिए पटकथा लेखन
- लघु फिल्म के लिए पटकथा लेखन
- वृत्तचित्र के लिए पटकथा लेखन
- विज्ञापन फिल्म के लिए पटकथा लेखन

यूनिट 4

- पटकथा का पाठ और विश्लेषण
- किसी आईडिया को स्कीन प्ले के तौर पर विकसित करना

सन्दर्भ पुस्तकेंः

- पटकथा कैसे लिखेंः राजेद्र पांडेय वाणी प्रकाशन, दिल्ली, संस्करण 2015

Course Title - रचनात्मक लेखन

Learning Objectives

- विद्यार्थीयों के मौखिक और लिखित अभिव्यक्ति कौशल को विकसित करना।
- उनमें कल्पनाशीलता और रचनात्मकता का विकास करना।
- साहित्य की विविध विधाओं और उनकी रचनात्मक शैली का परिचय कराते हुए लेखन की ओर प्रेरित करना।
- प्रिंट एवं इलेक्ट्रानिक माध्यमों के लिए लेखन की प्रवृति को विकसित करना।

Learning outcomes

The Learning Outcomes of this course of this course are as follows:

इस पाठ्यकम के अध्ययन के पश्चात् विद्यार्थीयों में :

- मौखिक और लिखित अभिव्यक्ति कौशल को विकसित होने में मदद मिलगी।
- उसमें कल्पनाशीलता और रचनात्मकता का विकास हो सकेगा।
- साहित्य की विधि विधाओं और उनकी रचनात्मकता शैली का परिचय होगा। जिससे वे स्वयं भी विधाओं में लेखन की अग्रसर हो सकेगे।
- प्रिंट एवं इलेक्ट्रानिक माध्यमों के लिए लेखन की ओर भी ये अग्रसर होंगे।

SYLLABUS

यूनिट 1

रचनात्मक लेखकः अवधारणाः स्वरूप आधार एवं विश्लेषण

- भाव एवं विचार की रचना में अभिव्यक्ति की प्रक्रिया
- अभिव्यक्ति के विविध क्षेत्रः साहित्य पत्रकारिता विज्ञापन भाषण

Jen h

Page 42 of 44

- लेखन के विविध रूपः मौखिक–लिखित गद्य–पद्य कथात्मक–कथेतर
- अर्थ निर्मित के आधारः शब्द और अर्थ की मीमांसा शब्द के पुराने—नए प्रयोग, शब्द की व्याकरणिक कोटि

यूनिट 2

भाषा भगिमा और साहित्य लेखन

- भाषा भंगिमाएँ: औपचारिक–अनौपचारिक, मौखिक–लिखित, मानक भाषिक संदर्भः क्षेत्रीय, वर्ग–सापेक्ष, समूह–सापेक्ष
- रचना-सौष्ठवः शब्दशक्ति, प्रतीक, बिम्ब, अलंकारवकृता
- कविताः संवेदना भाषिक सौष्ठव, छंदबद्ध-छंदमुक्त, लय, गति, तुक
- कथा—साहित्यः वस्तु, पात्र, परिवेश, कथ्य और भाषा

यूनिट 3

विविध विधाओं एवं सूचना माध्यमों के लिए लेखन

- नाट्य-साहित्यः वस्तु, पात्र, परिवेश, कथ्य, रंगमंच और नाट्य-भाषा
- विविध गद्य विधाएँः निबंध, संस्मरण, आत्मकथा, व्यंग्य,रिपोर्ताज, यात्रा-वृत्तांत
- प्रिंट माध्यम के लिए लेखनः फीचर, यात्रा—वृत्तांत, साक्षात्कार, विज्ञापन
- इलेक्ट्रानिक माध्यम के लिए लेखनः विज्ञापन, पटकथा, संवाद

Practical Exercises if any:

नोटः उपर्युक्त का परिचय देते हुए इनका अभ्यास भी करवाया जाए।

Course Title – Arts of Being Happy

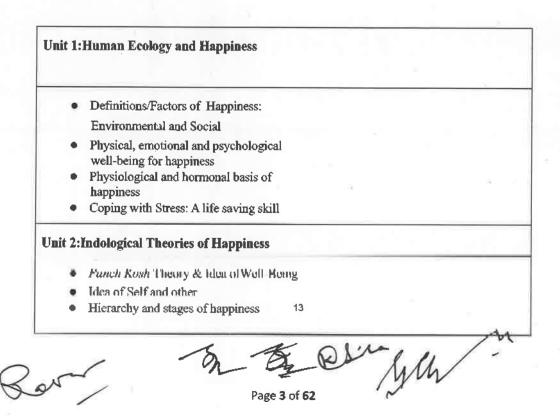

Course Objectives

- To synthesize the insights developed by Human Development experts, Psychologists, Anthropologists on one hand, and the intellectual traditions of Vedantic Philosophy and Indology on the other towards the experience of happiness.
- To illustrate various factors that determine the subjective experience of happiness in a cross cultural context.

Learning Outcomes

- The students shall be able to evaluate the factors contributing to the phenomenon of happiness in the personal, familial and community life of an individual in different cultures in the Indian context.
- They will be able to develop healthy interpersonal relationships and wellbeing, cherishing the values of Indian culture and philosophy.
- They will be able to relate to the global phenomenon of sustainable development and become sensitive to the needs of the planet.
- They will be able to apply the experience of Aananda at a personal level.

Syllabus of The Art of Being Happy

Unit 3 : Happiness: Cross-cultural Contexts

- Culture and Happiness
- Interpersonal Relationship: Comparative
 Perspective
- Towards Self-Actualization

Unit 4:Local and Global Perspective of Happiness

- Measuring happiness: Key indicators
- Happiness Index
- India in Global Happiness Indices

Practical/ Practice Component

The course will be based on students' identification and operationalization of the concept of happiness and well-being. Students will explore the indicators and actualization of these concepts in everyday life.

- Community surveys on the facilities promoting positive mental health practices such as Yoga and Meditation Centres, Recreation clubs, and Parks for youth and senior citizens shall be carried out by the students.
- Extending help and social service by visiting old age homes/hospitals/slum areas or any other disadvantaged groups.
- Students can undertake a field work / project independently or work as an Intern with NGOs working in the area of happiness and well-being.
- Critical appreciation of a documentary/ film based on Happiness and Well-being can be undertaken by the students.
- Workshops/ Sessions for the actualization of innate creative potential- (Music, Drawing, Calligraphy, Dramatics)
- · Hands-on Happiness: Gardening, Cleaning, Washing, Cooking, etc.
- If required, students can share their experiences in the form of a Project Report.
- Students may share their experiences in the form of Audio-video presentations of 15-20 minutes.
- Any other Practical/Practice as decided from time to time

Course Title - CULTURE AND COMMUNICATION

Learning Objectives:

- To focus on traditional values disseminated from Indian cultural heritage.
- To understand the interconnections between the legacy of our past and needs of our contemporary society.
- To learn to adapt, interact and celebrate our diversity and pluralistic culture.
- To develop communication skills in speaking, listening, reading and writing and apply them in our quotidian life as young citizens of contemporary India.
- To integrate ethical values and life skills.

Course Outcomes:

- Students will be able to appreciate the relevance of ancient Indian wisdom and core ethical values in our contemporary life.
- Students will be able to engage in a dialogue between the past and the present and inculcate the best principles towards a meaningful life.
- Students will be encouraged to involve themselves in team work and group activities to address challenges faced in metropolitan cities.
- Students will be able to develop communication skills, that is, analytical reading, empathetic listening, considerate speaking as well as informed writing.
- Extension activities will equip the students, drawn from diverse backgrounds, with life skills and confidence to integrate with a multicultural environment and work towards an inclusive community.
- Students will be encouraged to envisage and work towards an ethically robust society and thereby strengthen the nation.

The Detrucho

ben h

Page 10 of 62

Unit I: Ethical Valuesfrom Indian Cultural Heritage

- VasudhaivaKutumbakam
- United WeStand, Divided WeFall
- Ek Bharat, Shresht Bharat

Unit II: Developing Life Skills

- Empathy
- Adaptability
- Conserving our natural resources
- Sharing knowledge resources

Unit III: Effective Communication in Everyday Life

- empathetic listening
- considerate speaking
- analytical reading
- informed writing

Practical/Practice Component

As hands-on experience is an essential component of the course, this section will focus on the practical aspects to correlate with the fundamental principles and learnings of the theory portion. Students will be encouraged to use the communication tools learnt through Unit 3 and corroborate the continuities of core principles studied in Unit 1 and 2.

- Students will be asked to conduct surveys/interviews in their neighbourhood or commuting routes to assess the nature and quality of negotiating our cultural diversity and pluralist traditions.
- Students would be assigned visits to old-age homes, hospitals, cancer wards, etc. to interact and write about their experiences with old people, caregivers, patients, nursing staff, helpers, etc.

staff, helpers, etc.

• They will also be assigned visits to historically important places and monuments within the city and also converse with the tourists in order to trace a comprehensive view of the rich cultural history of India. They may create video documentaries, take and record tourists' interviews and/or write a journal entry of the visit using the communication skills learnt.

Page 11 of 62

bch h

• Students shall make group presentations or individual reports on the activities undertaken. Discussions with classmates and the teacher shall be undertaken to evolve clarity of vision on the ethical values and effective communication skills learned through this course.

Course Title - Digital Empowerment

COURSE OBJECTIVES:

- Understand the digital world and need for digital empowerment
- Create awareness about Digital India.
- Explore, communicate and collaborate in cyberspace.
- Building awareness on cybersafety and security.

LEARNING OUTCOMES:

- Use ICT and digital services in daily life.
- Develop skills to communicate and collaborate in cyberspace using social platforms, teaching/learning tools.
- Understand the significance of security and privacy in the digital world.
- Evaluate ethical issues in the cyber world.

Syllabus of Digital Empowerment

Unit I: Digital inclusion and Digital Empowerment

- Needs and challenges
- Vision of Digital India: DigiLocker, E-Hospitals, e-Pathshala, BHIM, e-Kranti (Electronic Delivery of Services), e-Health Campaigns
- Public utility portals of Govt. of India such as RTI, Health, Finance, Income Tax filing, Education

Unit II: Communication and Collaboration in the Cyberspace

Syllabus of Digital Empowerment

Unit I: Digital inclusion and Digital Empowerment

- Needs and challenges
- Vision of Digital India: DigiLocker, E-Hospitals, e-Pathshala, BHIM, e-Kranti (Electronic Delivery of Services), e-Health Campaigns
- Public utility portals of Govt. of India such as RTI, Health, Finance, Income Tax filing, Education

Unit II: Communication and Collaboration in the Cyberspace

Lave

Sen In

Page 13 of 62

- Electronic Communication: electronic mail, blogs, social media
- Collaborative Digital platforms
- Tools/platforms for online learning
- Collaboration using file sharing, messaging, video conferencing

Unit III: Towards Safe and Secure Cyberspace

- Online security and privacy
- Threats in the digital world: Data breach and Cyber Attacks
- Blockchain Technology
- Security Initiatives by the Govt of India

Unit IV: Ethical Issues in Digital World

- Netiquettes
- Ethics in digital communication
- Ethics in Cyberspace

Practical/ Practice Component

The course should be conducted in an interactive mode through demonstration, using appropriate tools.

- Conduct workshops on e-services initiated under Digital India.
- Spread digital literacy/awareness amongst the vulnerable groups and marginalised

sections of the society like street vendors, domestic help, security guards, senior

citizens.

• Students will take up team activities/ projects exploring digital services in the areas

such as education, health, planning, farming, security, cyber security, financial

inclusion, and justice, e-Kranti.

• Any other Practical/Practice as decided from time to time

<u>Course Title – Emotional Intelligence</u>

COURSE OBJECTIVES

- Introduce the concept of emotional intelligence, its models and components.
- Understand the significance of emotional intelligence in self-growth and building effective relationships.
- Identify the measures of emotional intelligence.

LEARNING OUTCOMES

- Self-Awareness, Self-Management, Social Awareness & Relationship Management.
- Discover personal competence and techniques of building emotional intelligence.
- Gain insights into establishing positive relationships.

Syllabus of Emotional Intelligence

Unit I: Fundamentals of Emotional Intelligence Nature and Significance Models of emotional intelligence: Ability, Trait and Mixed Building blocks of emotional intelligence: self-awareness, self-management, • social awareness, and relationship management Unit II: Personal Competence · Self Awareness: Observing and recognizing one's own feelings, Knowing one's strengths and areas of development. Self Management: Managing emotions, anxiety, fear, and anger. Unit III: Social Competence • Social Awareness: Others' Perspectives, Empathy and Compassion Relationship Management: Effective communication, Collaboration, Teamwork, and Conflict management Unit IV: Emotional Intelligence: Measurement and Development Measures of emotional intelligence • Strategies to develop and enhance emotional intelligence

Practical/ Practice Component

Students will practice self-management techniques to regulate emotions such as

- Mindfulness
- Conditioned relaxation response
- Boundary setting
- Any other

Students will practice various techniques of relationship management such as engaging with:

- Display of empathy
- Effective communication

Jul to pin

Page 16 of 62

- Teamwork
- Conflict resolution
- Any other
- · If required, students can share their experiences in the form of a Project Report.

Course Title - Ecology and Literature

Course Objectives:

- To raise awareness among students towards the urgent predicament of Environmental and Ecological crisis and the need for reducing our carbon footprint upon fast depleting, ravaged ecological reserves.
- To develop a heightened ecological consciousness among students, leading to more responsible ecological behavior.
- To view environmental concerns as raised through plays, stories and poems.

Learning Outcomes:

• The course will highlight the urgency of environmental crisis, making studentsconscious and aware of the role each one of us plays. into environmental sensitivity and responsible

ecologicalbehavior.

Students will be encouraged to respond to incidents of habitat destruction, deforestation, etc. and realize the need for our urgent intervention.

Syllabus of Ecology and Literature

Unit I: Negotiating environmental issues creatively

1. William Wordsworth: 'In April beneath the scented thorn'

2. Rabindranath Tagore: 'The Waterfall'

3. Gieve Patel: 'On Killing a Tree'

UNIT II. Ecocritical literary representations

1. Mary Oliver: 'Sleeping in the Forest'

2.AK Ramanujan: 'A Flowering Tree'

3.Mamang Dai: 'Small Townsand the River'

UNIT III: Empathetic exploration and imaginative re-enactments

1. Amitav Ghosh's 'Part I: Stories' from The GreatDerangement: Climate

Change and the Unthinkable.

2. ThangjamIbopishak: 'Volcano, Youcannot erupt' from Dancing Earth:

An Anthology of Poetry from North-East India

3. ThangjamIbopishak: 'Dali, Hussain, or Odour of Dream, Colour of Wind'

from Dancing Earth: An Anthology of Poetry from North-East India

Practical/ Practice Component

Students would undertake field visits to a school or a slum in the neighborhood or the

play area of residential complexes to share, narrate stories, poems and articulate the ideas

Page 18 of 62

guli esc

engaged with in the classroom lectures.

• They shall apply imaginative and creative ways of presenting socially responsible ecological behavior through re-tellings of the texts they have studied in the class.

• Creative re-enactment of key ideas studied by students in the form of a play, to be done Individually and/or in a group to create awareness regarding environmental consciousness.

• They can also collectively organize a tree plantation drive in and around the college campus and adopt a sapling each in the college premises and in their neighborhood to take care of.

• Any other Practical/Practice as decided from time to time

Course Title - Ethics and Culture

Course Objectives

- The course aims to help students explore ethical and cultural dimensions of their lives.
- The course provides a forum for students to pause, revisit their assumptions and beliefs, and become mindful of their thoughts, emotions and actions.
- It gives the students an opportunity to express themselves and inquire into their decision making processes. This will enable them to cultivate ethical values and participate in the creation of a society based on acceptance, compassion, and justice.

Learning Outcomes

- Explore perspectives on ethics in thoughts, words and actions
- Evolve ethical decision making practises
- Understand the need for an ethical society and culture
- Introspect, become conscious of and assess one's stance in life
- Cultivate empathy, tolerance and compassion
- Apply the values learnt in the course to everyday life.

leh or

Syllabus of Ethics and Culture

Unit 1

Unit I: Introduction | The Basis of Ethics

- Getting to Know Each Other
- What to Expect from the Course?
- Recognition of Our Common Humanity
- Empathy, Compassion and Justice

Unit II: The Role of Intelligence, Reason and Emotions

- Discemment: What Is The Right Thing To Do?
- The Art of Conflict Resolution
- Destructive and Constructive Emotions
- The Need for Emotional Balance

Unit III: Cultivating Inner Values | Ethics in the World of Work and Play

- Training the Mind: Mindfulness and Kindness
- Meditation
- Discovering your Vocation and Interests
- Self-discipline, Integrity, Commitment, Creativity
- Work-Life Balance

Unit IV: Striving for a Better World | Outreach Activities

Means and Ends

- Debate and Dialogue
- Culture as Shared Values
- Creating and Sustaining Ethical Cultures: The Role of Philosophy, Religion, Literature, Theatre, Cinema, Music, Media

Practical/ Practice Component Unit 1

1. The teacher may ask students to introduce themselves, sharing their regional and cultural roots. They may be asked to reflect on those aspects of their identities that

reflect their cultural roots.

- 2. After a round of initial introduction, the teacher may ask students to list down a set of values that they think they have developed through their parents and grandparents. Are these values unique to their families, regional and/or ethnic backgrounds? Of these, which are the values they would like to sustain and which are the ones they would wish to modify?
- 3. The teacher may draw upon the values discussed by students in the previous lesson. Using these as the base, the teacher may ask students to think of ethical values that form the basis of their decisions.

re

Page 21 of 62 he lyth "

- 4. The teacher may ask students to think of people who they think have lived an 'ethical life'. These may be people who they know from their personal lives or people known for upholding ethical values in the face of adversity.
- 5. Students are encouraged to identify what are common human values necessary to realise shared common humanity-the feeling of interconnectedness/interdependence.
- 6. Class to be divided in small groups to discuss how each would make an effort to cultivate new morals/ethical values for betterment of their local environment.
- 7. Celebrating 'Sharing and Caring' based on regional diversity can be encouraged.
- Engage students to do activities of 'being in the shoes of others' (peers, parents, siblings, house help/support or in any local community grappling with problems) to understand the problems empathetically.
- 9. The students can be asked to make bookmarks/cards to remind them about virtues pertaining to empathy versus sympathy, need versus greed, just versus unjust or compassion versus insensitivity.
- 10. Compassion is about cultivation of it as a daily value so students can in small groups undertake compassion based activities of looking after animals, birds, needy, elderly, differently abled, non-privileged etc. and share their thoughts in the class.

Unit 2

- 1. Make the student think of a hard decision they have made. What made it hard? How did you make the decision? How do you assess it retrospectively?
- 2. Encourage students to think of judgements and decisions based on the dilemmas and challenges they faced? How do they go about making these decisions?
- 3. The teacher may introduce any well known story and ask the students to discuss the story from the point of view of the different characters.
- 4. Ask students how willing they are to deal with a conflict when it occurs. What strategies do they adopt to resolve the conflict?
- 5. The teacher may ask students to prepare posters with captions like "avoidance", "competition", "cooperation" and "adaptation" and then may ask students to identify with one of these styles which according to them best represents their style of dealing with conflict.
- 6. The students may be asked to discuss different such similar situations that they may have encountered and a discussion may be initiated on how they resolve those conflicts.
- The students can be asked to write down certain destructive emotions that they are experiencing presently. How would they work to make them constructive? A classroom discussion could follow around this.
- 8. Ask the students to note down a list of constructive emotions experienced by them

lich

Page 22 of 62

recently. Were the constructive emotions less powerful as compared to the destructive ones experienced by them? Discussion in class can follow.

- 9. How do you (i) express, (ii) handle anger/ disgust/ distress/ fear (any destructive emotion can be taken up). A healthy discussion in the class can take place around this.
- 10. Students may be asked to practice a simple breathing exercise. They can sit straight with eyes opened or closed in a comfortable position to just observe their breathing. They can repeat this exercise six to eight times and share (if they like) their experience of silence.
- 11. To identify your interests and develop a meaningful hobby.
- 12. Have an open conversation in the class about happiness.

Unit 3

- 1. The students could observe various emotions that bottle-up in their minds and be asked to watch the flow of emotions non-judgmentally.
- 2. Students may be asked to recall their journey to the college that morning. Do they remember road signs, faces of people they crossed, the roads that they took, the people they interacted with, the sights and smells around them, or anything else?
- Students could be asked to cultivate the habit of simple greeting as practice of gratitude and celebrate a day of joyful giving.
- 4. The students can close their eyes for 2-3 minutes and be asked to observe their thoughts, list them and categorise them into 'to be kept' or 'to let go'.
- 5. The teacher may ask students to close their eyes and imagine a situation in which they are truly happy. Students could wish for the well-being of two students in the same classroom in their meditative state.
- 6. Students could meditate on who has been their inspiration and the qualities of the person who has inspired them and then express gratitude to the person concerned.
- 7. The teacher may ask the students to think retrospectively about what they thought they would take up as a vocation when they were younger. How and why their choices were influenced and changed, if at all.
- 8. The teacher may ask the students to imagine and chart a journey and destination for themselves. They may also talk about the challenges they foresee.
- 9. The teacher may encourage the students to maintain a daily diary of their scheduling of time or a worklog and see how much time they effectively give to their work. The teacher may help the students identify the distractors and where one may be 'wasting' time and energy. The activity is designed to help students understand the value of effective time utilisation.
- 10. In this lesson, the teacher may ask the students to draw up a list of team ethics. They may build this based on their experiences of working with each other in groups.

Page 23 of 62

lech ...

11. The teacher may ask the students to share an incident each where they felt pressurised/bored to complete some work. How did they deal with their stress and monotony of work?

Unit 4

- 1. Students will be asked to work in pairs and develop situations that pose ethical dilemmas and how to resolve them.
- 2. Students may be asked to look at a film or at an advertisement and discuss what they think about the question/s posed in them. The teacher may ask them if they can think of an alternative ethical approach to the problem posed.
- 3. Students will be asked to think of situations in which they lost their temper. Have they ever felt that in a fit of emotion they said something that they regretted later? If they had paused to listen and then respond, what would the other person have said? How would the outcome of the situation have been different?
- 4. A debate on any relevant topic may be conducted in the class. After the first round the students may be asked to adopt and argue their opponents point of view. At the end of this exercise the students can have an open discussion on which position finally appealed to them.
- 5. The teacher may give a short story to the students and ask them to change the ending. They may be asked to observe how characters and their views may have undergone change in the process.
- 6. There can be a discussion around a topic such as, the idea of corporal punishment, euthanasia etc. Students can be given a sheet of paper and can be asked to write for or against the theme. The idea is to enable them to understand that the positions they have taken vis-a-vis the theme are a result of different value orientations.
- 7. Popular foods from many parts of India can be discussed. Their origins can be traced to chart a kind of food history.
- 8. The teacher on the basis of discussions with students can draw from Philosophy, Religion, Literature, Theatre, Cinema, and Media to highlight that the choices people/characters make are grounded in their culture.
- 9. The students can discuss classical/folkdances that are performed in their respective groups. Details can be drawn based on the number of dancers, music (live or recorded) and costumes. The role of oral traditions and literature in indicating the importance of ethics in our everyday lives can be discussed.

Suggested Activities for Outreach: Social/ Community Engagement and Service

In the weeks that follow, students will be expected to engage in outreach activities that shall enable them to put into practice some of the ethical considerations deliberated upon and imbibed in the previous modules. A list of suggested gugeach activities is as follows:

Page 24 of 62 Plies July 1

- Adopt a village with the aim of cultural and ethical learning
- Discussing health and hygiene issues in a community
- Tutoring students Gender sensitization
- Working on environmental issues
- · Working with Child Care Centre such as Anganwadis and Balwadis
- Working with differently abled students
- Preserving cultural and heritage sites
- Spending time with senior citizen including a Senior Citizens Home
- Extending care to animals in animal welfare shelters
- Addressing issues relating to Reproductive Health
- Spreading awareness about adolescent health
- Addressing issues relating to mental health
- Health and nutrition awareness
- Swacchata Abhiyaan
- Sensitisation towards disease awareness
- Vriksharopan

If required, students can share their experiences in the form of a Project Report

Any other Practical/Practice as decided from time to time Suggested Readings:

- Aristotle. Nichomachean Ethics. London: Penguin Classics, 2004
- Swami Vivekananda. The Complete Works of Swami Vivekananda. Advaita Ashrama, 2016.

<u>Coures Title - Ethics and Values in Ancient Indian Traditions</u>

COURSE OBJECTIVES:

- To understand the rich cultural traditions relating to discourses on life and its purpose, instilling of values relating to ethical and moral propriety.
- To make students more engaged with the past traditions of the country.
- To introduce students to early epics: Puranic, Buddhist and other traditions.

LEARNING OUTCOMES:

- Students will develop an overview of indigenous philosophies.
- Understanding the richness of Indian heritage leading to greater sensitivity.
- Inspiration from history to deal with contemporary issues.
- Appreciate the traditions of diversity, discussions, debates and knowledge transmission.

Syllabus of Ethics and Values in Ancient Indian Traditions

Juit I The idea of India and Bharat	
1. 'Jambudvipa'; 'Aryavrata'; 'Bharat'; India	
2. Early discourse on moral order- rta in Vedic traditions	
Debates in the Upanishads and the Shramanic traditions	
Unit II State, Society and Dharma	

Unit III The 'Purpose of Life' in Texts

- 1. 'Right Conduct': Buddhist, Jaina and Shramanic Traditions
- 2. Purușārtha Chatushtaya: Dharma, Artha, Kāma and Mokșa
- 3. Assimilation and Assertion: Ethical issues in Epics and Puranic traditions

Practical/ Practice Component

- Discuss in your locality, in 10-15 households with regard to Ethics and Values in Indian traditions:
 - Vedic traditions Purușārtha Chatushtaya Buddhist, Jaina and Shramanic Traditions Jambudvipa; Aryavrata; Bharat; India
- Students are required to explore e-resources available with University of Delhi and other academic institutions.

Page 26 of 62 Dilably

- Students are required to watch documentaries and films on the subject-related topics.
- If required, students can share their experiences in the form of a Project Report.
- Students may share their experiences in the form of audio-visual presentations of 15-30 minutes.
- Any other Practical/Practice as decided from time to time

Coruse Title - Financial Literacy

Course Objectives

• Familiarity with different aspects of financial literacy such as savings, investment, taxation, and insurance

- Understand the relevance and process of financial planning
- Promote financial well-being Learning Outcomes
- · Develop proficiency for personal and family financial planning
- Apply the concept of investment planning
- Ability to analyse banking and insurance products
- Personal tax planning

Syllabus of Financial Literacy

Unit I: Financial Planning and Financial products

- Introduction to Saving
- Time value of money
- Management of spending and financial discipline

Unit II: Banking and Digital Payment

- Banking products and services
- Digitisation of financial transactions: Debit Cards (ATM Cards) and Credit Cards. Net banking and UPI, digital wallets
- Security and precautions against Ponzi schemes and online frauds

Unit III: Investment Planning and Management

- Investment opportunity and financial products
- Insurance Planning: Life and non-life including medical insurance schemes

Unit IV: Personal Tax

- Introduction to basic Tax Structure in India for personal taxation
- Aspects of Personal tax planning
- Exemptions and deductions for individuals
- e-filing

Practical/ Practice Component

- Regular class activities to enhance students' understanding of topics and the application of concepte. The case study method may be followed as a teaching pedagogy.
- Numerical questions pertaining to each unit wherever applicable should be practiced.
- For the second unit, students may be assigned a project wherein they can log on to the website of various banks and conduct an in-depth analysis and comparison of various financial products offered.
- For Unit III, a Project related to building a dummy portfolio of stocks and tracking their returns may be given.

Page 28 of 62 Bill with "

(

- An investment budget may be given to the students to select investment options that maximize the return and minimize the tax implications.
- For the last unit, students may also file a dummy IT return to get hands-on experience with e-filing.
- Students may conduct a financial literacy survey among at least 25 respondents to measure the level of financial literacy and share the findings in the awareness in the form of a report.
- Any other Practical/Practice as decided from time to time

<u>Course Title - Fit India</u>

Course Objectives:

- Encourage physical activity through engaging the students in sports and yoga.
- Understand the importance of a balanced diet .
- Build skills for self-discipline, self-confidence, cooperation and teamwork.
- Promote fitness as a joyful activity.

Learning Outcomes:

- Adopting a healthy lifestyle.
- Knowledge of nutrition, diet and psycho-physiological aspects of fitness.
- Develop Self-esteem, Self-confidence, Self-discipline and team spirit as indicators of

fitness.

Syllabus of Fit India

Unit I: Participation in Physical Activity

- Fit India Protocol
- Physical Activity, Health and Fitness
- Indicators of Fitness

Practical/Practice

- Aerobic Work Out / Physical Activity (Walking)
- Yoga Asanas (Lying, Sitting and Standing positions) and Pranayama
- Cardiovascular Testing by 12min/9 min Cooper Run/Walk test

Unit II: Health Related Fitness and their Components

- Muscular Strength and Endurance
- Body Composition and Flexibility

Practical/Practice

- Flexibility Training: Back Saver Sit and Reach test
- Muscular Strength Training: Curl Ups / Standing Broad Jump/ VerticalJump/ Plyometric
- Endurance Training: 1 Mile RockPort Testor 12 /9 minute Cooper run/walk test.
- Ideal Body Weight, Body Mass Index (BMI), Waist-Hip Ratio, Waist-Height Ratio (Data of at least 10 persons to be collected)

Plile

Jely h

Page 30 of 62

Unit III: Nutrition and Fitness

- Healthy Eating Plate
- Balanced Diet
- Caloric Content of Food

Practical/Practice

- Preparing Daily Diet and Calorie Chart
- Aerobic Work Out / Physical Activity (Walking)
- Assessment of Physical Activity with the Calorie intake.
- Asanas for :
 - digestive system
 - excretory system

Unit IV: Psycho-physiological aspects of Fitness

- Sports Physiology and Psychology
- Depression, Anxiety and Stress Scale (DASS)
- Rosenberg Self Esteem Scale

Practical/Practice

- Skills learning and Participation in sports
- Group Games / Relays/ Minor Games
- Meditative Asanas and Pranayama
- Fitness component testing (as per Fit India Protocol and Norms) and Analysis of Results
- Data of at least 10 persons to be collected on DASS and self-esteem scale

Note: Concepts are to be taken up during the practical/practice hours.

Course Title - GANDHI AND EDUCATION

Course Objectives

- 1. Seek inspiration from Gandhi's thoughts on education.
- 2. Analyse Gandhian education philosophy for moral and character development.
- 3. Understand Gandhi's Idea on Self-reliant education (Swavalambi Shiksha)
- 4. Relate Gandhi's educational thoughts to NEP 2020

Learning Outcomes

- 1. Value Gandhian perspective on education
- 2. Appreciate the significance of education in Indian languages
- 3. Evaluate the application of Gandhian thoughts in NEP 2020
- 4. Realise the principles of NEP 2020 in vocational and skill oriented education.

Unit I: Gandhi's Philosophy and education

- Gandhi's Philosophy on education
- Education for character building and moral development
- Education relating to health, hygiene, heritage, and handicraft

Unit II: Gandhi's Experiment in Education

- Gandhi's educational ideas on use of Indian Language as a medium of Instruction, TextBook and Teacher.
- Gandhi's educational thought on Elementary and Adult Education.
- Gandhi's vision on Higher Education

Unit III: Gandhi's Educational Thought on Skill and Vocational Education

Rural development through Skill and Local Need Based education

Skill education in NEP 2020 and Gandhi

• Gandhi's Idea on Self-reliance (Swavalambi Shiksha) and its reflection in contemporary educational policy.

- Aut

32 Cella beh

Practical/ Practice Component

- Regular visits to Gandhi Museum and library to gain insight on Gandhi
- Excursion to Gandhi Ashrams located in different places like Sewagram, Wardha, Sabarmati, Ahmedabad etc.
- Workshops/projects in collaboration with Gandhi Bhawan, Gandhi Smriti and Darshan, Gandhi Peace Center. Ashrams based on innovation in village & cottage industry, Khadi, handicrafts, organic farming etc.
- Adoption of one place for Swachhta Mission or Skill Education
- If required, students can share their experiences in the form of a Project Report.
- Any other Practical/Practice as decided from time to time

Course Title - Social and Emotional Learning

Course Objectives

- This course aims to develop social and emotional awareness in students and initiate them towards better personal and social well-being.
- To create an awareness towards self, others, the environment and their harmonious coexistence.

Learning Outcomes

- Students will be able to become aware of oneself and the society.
- Make informed lifestyle choices and extend the self in the joy of giving.
- Develop empathy, compassion, connect with nature and evolve emotionally to create a more harmonious society.
- Cultivate sensitivity towards discriminatory practices and explore possible solutions.

Syllabus of Social and Emotional Learning

Unit I: Introduction | Self-Awareness and Happiness

- Getting to Know Each Other
- What to Expect from this Course?
- Getting to Know Oneself
- What Makes One Happy/ Unhappy? Outer vs Inner Sources of Happiness, Joy of Giving

Unit II: Social Relationships | Mindfulness

- Sharing vs Power: Peers, Family and Society
- Going Beyond Power Relationships Through Open Conversation
- The Value of Silence and Reflection
- Practice of Mindfulness

Unit III: Identity, Self-Image, Status, Self-Worth | Digital Identity

- Identity Construction and Expression: Individual and Collective
- Accepting and Valuing Oneself
- Understanding the Gendered World
- Identifying and transcending stereotypes
- Identity Formation and Validation in the Digital World
- Discrimination and its Forms

Page 36 of 62

Unit IV : Lifestyle Choices | Stress and Its Management

- What Choices Does One Get To Make?
- Is Choice influenced? Relationships, Career Choices
- Career Pressures, Examinations
- Dealing with Disappointment, Coping Skills, Health and Fitness
- Connect With Nature: Sensitivity Towards Other Sentient Beings

Practical/ Practice Component Unit 1

Getting to Know Each Other

In this lecture, the teacher will facilitate social engagement and personal reflection through a round of introductions. This also provides an opportunity for the teacher and students to recognise the deeper meanings that lie underneath routine exercises of introduction. For example, the adjectives that people use to describe themselves are indicative of the image that they wish others to hold of them. But do they hold the same image about themselves?

Teachers may begin the class by introducing themselves. Any introductory exercise that serves as an ice breaker and creates the classroom space as one of vibrant and open discussions, may be used. Teachers should try and ensure participation of all students in this exercise.

Activities

1. Who is in your circle?

Students may be asked to draw three concentric circles on their notebooks. The central circle is for the topic, the second for 'Love', and third for 'Like'. The space outside the circles is for 'Don't like'. The class decides on one topic, such as food, movies, web series, books, music, interests, etc. Each topic is taken up in turn and students are asked to write what they love, like, and don't like in the circles and share it with others. The exercise helps students to identify with their peers in commonalities and differences. The teacher may use prompts such as 'Why do you like this show?', 'Why do you dislike this food?' etc

2. I am ...

Students are asked to complete the sentences. The teacher may take turns and ask random students to answer it or the teacher may write these on the board and ask every student to write the answer in their notebooks. Some suggested prompt sentences are:

I am excited about.....

I wish I could.....

I am wondering

I am feeling anxious about

Que bly h

Page 37 of 62

Students can choose to share some of the answers with the class. The purpose of the exercise is to bring most students to speak in class and share their honest feelings and thoughts.

3. Introduce Yourself... Know Yourself

In this exercise, the teacher asks all students to take turns to introduce themselves. It is likely that most students will talk about their names, previous qualifications and hobbies. At the end of the introductions, the teacher can identify commonalities such as previous courses undertaken, regional identities, age, or similar common factors. The teacher may then use the following prompts to facilitate discussion:

Do these define you? Are you something more?

Would you like to change any of these qualifiers?

Is there something about you that you would like to share with us? Do you ever wonder about your identity/ identities?

What to Expect from this Course?

In this class, the focus is on understanding the relevance of the course and providing a course overview. Students will be able to explore the various dimensions of their lives and develop insights about themselves and their relationships. By discussing the outline of the course and the suggested activities, the teacher shall bring to the fore the exploratory journey that the students will embark upon. The students' questions relating to the course contents will also be addressed in this lecture.

Activities

In this class, the teacher may undertake an overview of the course, discussing each week's themes briefly. The nature of assignments and evaluation can also be detailed out. The teacher may hold a discussion with students on the following:

- 1. Why is social and emotional learning important?
- 2. What can the teacher do to make the classroom a more welcoming and open space for you?
- 3. What would be some of the activities that you would like to undertake during the course? Such

as watching movies, reading books, maintaining a reflective journal, engagement in the field, mindfulness exercises, etc.

Self Awareness and Happiness

The aim of this module is to help students develop awareness about themselves – who they are, what their strengths and limitations are, and how they can develop themselves. This will help them to learn interlinkages and distinctions between thoughts, emotions and behaviours. This module will make them aware of the differences between happiness and pleasure and help them ponder on sources of happiness.

Self Awareness

Self-awareness is the experience and understanding of one's own personality – how an individual understands his own feelings, motives, desires, and behaviour, and the triggers for the same. Hence, self-awareness can be considered to be vital for personal development.

Page 38 of 62 th

Students would thereby become more grounded and confident. This lesson will focus on the student's intrapersonal and interpersonal awareness through discussions and activities.

Activities

- 1. Students are asked to make a timeline of important events in their life and how each one affected them at that time. Do they see it differently today?
- SWOT Analysis can be done by each student Strengths, Weaknesses, Opportunities and Threats.
- 3. How do they envision their ideal person What does your ideal person look like? What characteristics do they possess? Identify the gap. How do they plan to fill/reduce the gap?

Happiness

The term 'happiness' includes pleasant and positive emotions which can range from deep satisfaction and contentment to pleasure and excitement. The focus of this session would be to discuss techniques to develop the long-lasting feelings of contentment rather than momentary and short-lived emotions of excitement and pleasure. This will encourage and foster feelings of wellbeing and life satisfaction. The teacher will use activities in order to inculcate the ways of developing and sustaining happiness.

Activities

Writing a gratitude Journal - include in it what you are grateful for.

Mindfulness exercises and developing a mindful way of doing things.

"As one door closes, another door opens". A discussion based on the three opportunities that they think they lost and consider what it was they gained in the process.

Unit 2

Social Relationships

In this module, students will be asked to turn their gaze towards the society in which they are located and where they form social relations. They will be asked to introspect and understand the ways in which they connect with their immediate and extended social surroundings. In this context, peers and family exercise a significant influence on the identities of adolescents and young adults. The students will be asked to assess the nature of their relationship with friends and family and explore these negotiations in the context of sharing versus power.

The teacher will help students broaden their understanding by extending the discussion to include other social relationships, beyond peers and family. They will be encouraged to think about how they are influenced and how they in turn influence the people around them. The class shall explore the importance of open conversation as a means to resolve conflicts and contradictions.

Sharing vs Power: Peers

Identity formation and development is significantly dependent on the peer group with which the individual interacts. During this class, the students may pose the following question to themselves and to each other- What is the nature of the relationships that they share with their peers? Adolescents and young adults like to conform to peer expectations. Students may

Page 39 of 62 yen h

explore whether relationships between peers are equal. What forces mediate these relationships? By posing examples from real life, the teacher will encourage the students to closely examine their relationships with their friends and family.

Activities

Ask the students to describe their close friends with fictitious names. They should then be asked why they are close to them and what is the one quality about their friends that they appreciate.

Divide students into groups of 5 each. This can vary depending on the class size. Each group can discuss how they were influenced by their friends in decision making processes.

The class/ group can share a story from their life about how they made a decision based on peer pressure. They should also share the result. Were they happy or unhappy about it? The findings can be discussed in the class.

Sharing vs Power: Family

The family is often considered to be a given and stable construct in which one is born or placed. As the relationships of adolescents with people outside the home grow, their interactions with their families evolve and take on a new and sometimes difficult character. Discussions and activities in the class should help the students objectively analyse their family space and the way in which they negotiate with it at different points of time. Through examples from day to day life, the teacher will help the students understand such spaces and the role they play.

Activities

Describe the ideal family. The students can think about the nature of the ideal created by them. What is the role played by siblings in your personal development?

Role play can be used to perform the different roles in a family so as to understand the different points of view within it.

Sharing vs Power: Society

The individuals generally extend the nature of their relationships with the family to the larger social world. In their pursuit to seek autonomy and independence, they may form new kinds of relationships in the larger social context. These relationships may be characterised by imbalances in power. This lecture will try to help the students strike a balance between self and society and stress the role of dialogue, sharing and cooperation.

Activities

The teacher can ask the students to describe any one constructive social role performed by them. (Any way in which they helped people around them). They can draw, speak, share a photograph or write a creative piece about it.

In the years to come what kind of role do you see yourself performing in society?

Share any one story about a person that has really influenced you? It can be about a public figure or anyone around you.

Going Beyond Power Through Open Conversation

In the previous lectures, the discussion has been around family, peer groups and society. In this session, the focus will be on the ways to build a more egalitarian society—one that is more collaborative, inclusive and takes into account different points of view. Open Conversation is suggested as a way by which acceptance, active listening and empathy can be

Page 40 of 62

Jth,

encouraged.

Activities

The students can be asked to present a brief performance showing the way in which open conversation can help in conflict resolution.

Movies in line with classroom discussions held in the past few weeks can be shown to the students. Movie screening should be followed by a discussion.

A short story, poem or a play can be used to build on classroom discussions.

Mindfulness

This module focuses on the significance of silence, introspection and non-judgmental awareness of the present moment. These mental practices are for understanding and building humane connection with self and others. The students are sometimes unable to spare time for their inner growth. Mindfulness practices aim at self-awareness and self- acceptance for overall well being. Valuing and practicing silence helps in the process of deeper reflection and builds inner strength to face conflicts with calmness. It hones the ability to develop mental equanimity and equipoise.

The Value of Silence and Reflection

The students will learn to understand the value of silence in the noise around. The practice of silence helps in self-reflection and connecting the inner and outer worlds. It enables one to experience joy, contentment and peace. Silence is a way of understanding how to enjoy one's own company and not to confuse being alone with loneliness. The students will appreciate that silence and solitude are positive and constructive.

Activities

The students can be asked to maintain silence and watch the flow of thoughts and emotions. In the process of silence the students can identify what gives them happiness and what they can do to create happiness for others.

The students can visit natural spaces to understand how silence runs in the sounds of nature which can help them realise peace.

Practice of Mindfulness

Through this lesson, the students will understand the significance of mindfulness as a daily practice for understanding that happiness depends on the self-training of mind. The joy of living in the moment with full awareness and steadiness of mind are important for accepting and cherishing all experiences positively and non-judgmentally.

Suggested Activities

Mindful walk/trek in the garden/forest/mountains or at a monument. Mindful eating while onjoying all elements of tastes in different types of food can also be done.

The students can be engaged in groups for non-judgmental listening

The class can be divided to discuss what activities of the day they engage with full awareness and where the moments go unnoticed

2 Dele blach

Page 41 of 62

Unit 3

Identity, Self-image, Status, Self-worth

The module is designed to help the learners revisit the constructs of identity, self and personhood. It builds on questions such as 'who am I', 'how do others and I see myself', 'does status and self-image affect my sense of self-worth'. Specifically, it deals with how one's identity takes shape and thereon begins to be an integral part of oneself. It encourages the students to think about what factors influence their self-worth, such as achievements and accumulations, wealth, career or popularity. The students learn to accept and appreciate self and others.

Identity Construction and Expression: Individual and Collective

This lesson is aimed to help the learners deconstruct their sense of identity and rechart the signifiers/ markers and processes which have played a pivotal role in constructing their sense of identity and self. Itunfoldshowprocesses of socialisation within family, school, community and society at large have played a role in making students who they are. How do these processes shape our notions of self-concept, self-evaluation, and self-esteem? The students will be able to become aware of their individual and collective sense of identity and self.

Activities

The teacher may ask the students to imagine one's identity in different contexts that are significant for identity construction. For instance, what does identity of being someone's 'child' entail; likewise what kind of an identity does one expect of oneself as a sibling, student and as a friend.

The teacher may ask the students to read from biographies/autobiographies of people from other cultures and discuss excerpts from the books. The teacher may elaborate the qualities of these people.

The teacher may organise a field visit with the students to different places. Ask the students to survey people from those locales about their experiences.

Accepting and Valuing Oneself

This lesson builds on the previous lesson by unpacking how concerns revolving around selfimage and status may affect one's sense of self. It aims to make one aware why a challenge to one's identity may lead to discomfort and conflict. Students will be encouraged to accept their physical appearance and identity and to value self-worth. This lesson invites them to undertake an inward journey.

Activities

The teacher may ask students to respond to different characters in a movie where challenges to their identity lead to different kinds of responses.

What will change after 10 years in terms of your identity and what according to you will not change?

The teacher may ask the students to identify an 'open space' and 'sit alone' and write a reflective essay on the theme, 'remember what makes you, you'.

Gender Roles

burn h

The objective of this module is to enable the students to differentiate between biological and psychological context of gender in order to understand how their gendered identities are socially constructed. Gender refers to the characteristics of men and women and includes norms, behaviour and roles associated with being man or woman, girl or boy. Further, this will enable the students to become aware that their destiny need not be determined by biology.

Understanding a Gendered World

The objective of this lecture is to enable the students to understand that gender roles are taught by the process of socialization, beginning with the family. Everyday things that we do like eating, speaking, walking, our gestures and even the professions that we think we choose are all often influenced by societal norms.

Activities

The teacher may ask the students to list things associated under the heading; men and women. Once listed, the headings can be interchanged and a discussion may follow.

Ask students to bring an artefact from home, it can be a childhood picture. On the basis of the picture students can share childhood experiences. Through the narrative of their oral history students can share experiences of how they acquired gender.

Identifying and Transcending Stereotypes

In the previous lecture, students have been made aware that gender stereotypes are socially constructed, that the ways in which we interact with others and with ourselves are shaped by gender. The objective of this lecture is to explain the importance of thinking beyond the stereotypes and to reinforce that biological differences between genders should not lead to social discrimination.

Activities

Movie viewing: Students and teachers can choose any movie for discussion. Quiz cards: On the cards the following can be written and the student can be asked to identify which is socially constructed and which refers to biology.

Men are Breadwinners, Women are homemakers.

Males have XY chromosomes, Females have XX chromosomes.

Women give birth to babies, men don't.

Boys don't cry

Digital Identity

It may be constricting to identify exclusively with ideas like region, ethnicity, language, gender, nationality. For, in this increasingly interconnected world, students find themselves at the intersection of many ideas - evolving and fixed, dominant and marginalised. This rainbow of ideas provides un opportunity to appreciate the diversity in the constitution of an individual's identity. But what happens when one is given a chance to construct a digital identity for oneself? Digital platforms and social networking sites arguably provide an individual the choice to portray oneself the way one likes. Do we choose to present our authentic selves or do we prefer to present highly curated versions of ourselves? Do social media posts reflect self-respect and self-love?

Identity Formation and Validation in the Digital World

Page 43 of 62

Ch gly

Through this session, students are expected to realise the ways in which they construct themselves digitally and how that construction is a manifestation of conformity, resistance and/or subversion, of the dominant ideologies. Students should be encouraged to reflect on what exactly they are seeking from engaging with social media. They need to think how the joy of sharing ideas may be different from the egoic need for compulsive validation.

Activities

Think of the digital filters that you use before sharing your photographs with others. Why do you think you need to do that?

We often feel happy about being validated in the form of 'likes' and positive comments on our social media posts. However, do you feel sad when that does not happen? What could be the possible reason for your mind to have this line of thought?

Digital Identities: Impact on the Self

The students will carry forward the learnings from the previous session and continue their inquiry in the realm of motivations for curating a digital self and its relation to self-esteern. They would be encouraged to engage in a non-judgemental conversation which would motivate them to inquire whether their digital activities are a result of anxiety which may be emanating from their self-image.

Activities

Do you think the use of digital filters is disrespectful to your self? Is not using them a source of anxiety for you? Can this have anything to do with your self-esteem?

Think of situations that make you feel sad on social media. Note them down. Do you think not exposing yourself to such a situation is a solution or do you think you also need to locate the issue within yourself?

Try spending a day without doing any activity on social media like posting anything or surfing other people's accounts for their activities. At the end of the day observe how you feel.

Unit IV

Lifestyle Choices

How we choose to live and behave influences our social and emotional wellbeing. In this module we analyse our lifestyle choices relating to material and cultural consumption, relationships and career. Students will be encouraged to inquire whether our everyday choices are based on a culture of passive consumption and conformism. We will seek to explore possibilities of alternative forms of living premised on ethical consumption, altruism, simple and sustainable living.

What Choices Does One Get to Make?

In this session, the attempt will be to explore the extent to which consumerism impacts our lifestyle choices and the repercussions of these on our natural and social environment. Today we live in an era of mass consumption and consumer culture fostered by advanced technologies and global production systems. Overt materialism, wasteful and conspicuous

Page 44 of 62

Jeh in

consumption unmindful of the larger implications are key aspects of this phenomenon. In this lecture, we explore our lifestyle choices such as our physical image, attire, dietary choices, desire for dream homes and destination weddings. This would be the starting point for a re-imagination of a world based upon choices that would lead to simple and sustainable living.

Suggested Activities

Students may be asked to work through their consumption history right from their childhood. A discussion may then be initiated by asking the students to reflect on their consumption choices and their motives behind the same.

The teacher may identify a few products like tea, coffee, coca-cola, jeans etc and ask the students to trace product histories and geographies.

The students may be asked to discuss a strong desire to possess an object and then deconstruct that desire. Discussion may emphasise upon why they wanted it?

Is Choice Influenced? Relationships, Career Choices

In this lecture, we examine the extent to which lifestyle choices, regarding relationships and career, get influenced and by what factors. Do we really have a choice as regards the career that we intend to pursue? Often factors like family, gender, the need for security and stability influence our choices. Recognizing and mapping the space of freedom and unfreedom with respect to our choices is a necessary life skill that would enable a more self-aware and harmonious living.

Activities

Reflect on an instance where you may have inflicted pain on someone and also think of a moment when you felt someone was insensitive in their conduct of a relationship.

The teacher may divide the class into small groups and hold a discussion on what constitutes a successful career.

Reflect on the various career options available in your society and discuss what you would prefer to pursue and why?

Discrimination

The module is designed to help the learners understand the origin and nature of discrimination and the effects thereof. Discrimination can be on various grounds such as ethnicity, religion, caste, race, gender, disability, or place of birth. One's discriminatory actions can lead to social fragmentation. The module encourages the learners to introspect their actions and seeks to celebrate diversity.

Why and How? Forms of Discrimination

The objective of this lesson is to make learners aware of different forms of discrimination. On the one hand, an individual can be a victim of discrimination, and on the other, the same person

may harbour projudice or discriminate against others. It is pertinent to understand our own biases and introspect our actions.

Page 45 of 62 M lith.

Activities

The teacher can ask students to count their friends who belong to different backgrounds. They can reflect on what they have learned by interacting with these friends.

Ask students to learn about their neighbourhood and document what groups live there, what has been the nature of their relationships.

An exercise on privilege using nothing but wadded up papers and a trash can. Students Learn A Powerful Lesson About Privilege. https://youtu.be/2KlmvmuxzYE

Stress and Its Management

This module is designed to give students an opportunity to articulate the pressures and challenges that one experiences in life. It gives students a chance to spell out how pressure to perform well can become a source of stress. The module is aimed to equip the learners with ways of dealing with disappointments with regard to the choice of career path and with performance related stress. It brings to fore skills of coping with stress and disappointments. It also highlights the role of physical well-being in keeping oneself mentally healthy.

Career Pressures, Examinations

This lesson is designed to help students have a relook at the challenges and pressures they have recently faced or are facing on account of career choices and examinations. It gives them a space to articulate what they might have faced while making these choices. This lesson also gives them an opportunity to highlight the uncertainties and challenges they foresee in their future lives.

Activities

The teacher may ask the students to organise themselves in groups of 4-6. Each of the groups have to do a role-play around the themes on career pressures.

Show images of different people and ask the students to quickly jot down impressions. The collective answers serve as a springboard for discussions. Students may learn about their own

biases through this activity.

The teacher may ask the students to identify movies where struggles related to career and performance pressure stand out.

The teacher may ask the students to share their experiences about the following:

- First few months into an academic programmes
- 2 months before examinations
- On the day of examination
- 15 days after examinations get over

on Otils billy

Dealing with Disappointments, Coping Skills, Health and Fitness

This session aims to equip the learners with coping skills to manage stress and deal with disappointments. Furthermore, it makes them aware of the importance of health and fitness for maintaining mental health.

Activities

The teacher can ask the students to write how they come to know they are stressed and what they do when they are stressed? The teacher may engage them in a discussion on coping skills and channelize students' energies into positive ways of resolutions of conflict and stress.

The teacher may ask the students to discuss the lives of high achievers and low achievers and how performance pressures drive their lives. Can they draw similarities and differences in the sources of stresses and how they deal with these stresses?

Ask each of the students to share their daily regime to keep themselves physically fit. The students may also share how each one mentally 'feels/experiences' when one is engaged in physical exercises.

Connect with Nature

This module is designed to strengthen bonds with nature while understanding its intrinsic value as opposed to its instrumental value. Issues of global warming and environmental degradation are the consequences of a disconnect between humans and nature. The aim is to cultivate environmental awareness through virtues of altruistic responsibility, empathy, cohesiveness, and mutual sustainability between nature, flora-fauna, animals and humans. The students may be engaged in activities to build bridges between the inner environment (one's self) and external environment (nature). In this way, they can celebrate oneness with nature and perceive nature not as a means but an end in itself.

Sensitivity Towards Other Sentient Beings

The students, in this session, would participate in group based environmental activities as a way of building social responsibility towards all sentient beings. Any action against even a part of nature impacts the whole. Thus, it is the responsibility of all, to create a safe environment for all sentient beings to live in harmony.

Activities

Students can be encouraged for Nature walks, nature drives, treks and hikes, nature photography, adopting natural spaces in local areas, plantation drives, visiting biodiversity parks, adopting spaces for greening etc.

Visite to animal shelters can be organised to sensitize the students.

Films can be screened on environmental sustainability, environmental consciousness etc

Any other Practical/Practice as decided from time to time

Course Title - Sports for Life

Course Objectives

- To imbibe the significance of sports to promote health, fitness and wellness in life.
- To understand the values of teamwork, tolerance, goal-setting and decision making.
- To learn the strategies and tactical moves while playing a sport.
- To understand the importance of physical activity in reference to 3S: strength, speed and suppleness.

Learning Outcomes

- Acquire values of cooperation, team spirit, determination, and endurance.
- Acquire good health and psychological well-being through sports participation.
- Apply the decision making-ability and goal-setting skills acquired through sports participation in everyday life.
- Acquire skills for engaging in moderate or vigorous physical activity and sports participation.
- Reduce exposure to screen time on electronic gadgets and channelising energy through sports participation.

Syllabus of Sports for Life

Unit I: Rules and Techniques

Concept

- Rules of the Sport
- Techniques / skills in the sport/ Aerobic Skills

Practical

- Marking of the court / field
- Outdoor Adventure Activity
- Skills learning in sports
- Group Games / Relays
- Participation in Intramural competitions

S. QAL Son h. Barry

Unit II: Components of Fitness

Concepts

 Meaning and Development of Strength, Speed, Endurance, Flexibility and Coordinative Abilities.

Practical

- Skills learning and Participation in sports
- Group Games / Relays / Minor games
- Participation in Intramural competitions

Unit III: Benefits of sports and physical activity

Concepts

- Effect of exercise on the body
- Organizing of a sports competition
- Balanced Diet

Practical

- Skills learning and participation in sports
- Group Games, / Relays / Step Aerobics
- Participation in Intramural competitions

Unit IV: Sports in Contemporary Times

Concepts

 Honours and Awards associated with sports and sportspersons

Practical

- Skills learning and Participation in sports
- Participation in Intramural competitions

Coruse Title - Swachh Bharat

COURSE OBJECTIVES:

• To understand the developmental challenges with reference to sanitation infrastructure and practices.

• To build values of cleanliness, hygiene and waste management in diverse socio-economic contexts.

- To understand planning of social policy and programmes.
- To use waste management techniques at community level.
- To instill a sense of service towards society and the Nation. LEARNING OUTCOMES:
- Understanding the significance of the Swachh Bharat Abhiyan.
- Ability to analyse and predict the sanitation challenges of India
- Determine the link between sanitation and development.
- · Contribute to the Swachh Bharat Abhiyan through real time projects/fieldwork

Syllabus of Swachh Bharat

Unit I: Introduction to Swachh Bharat Abhiyan

- Gandhian philosophy of Cleanliness
- Swachh Bharat Abhiyan (SBA)
- Hygiene, Sanitation & Sustainable Waste Management
- Agencies and nodal Ministries for SBA
- Different phases of the SBA and its evaluation
- · Citizens' Responsibilities: Role of Swacchagrahi

Unit II: Swachh Bharat: Rural and Urban Facets

- Indicators for Swachh Bharat
- Rural
 - Sanitation coverage across households (2014 vs. 2022)
 - Open Defecation Free (ODF) Villages: Parameters
 - ODF plus model: Key indicators
- Urban
 - Sustainable sanitation
 - Waste/water and solid waste management.
 - Garbage Free Cities

Unit III: Prospects and Challenges

- Attitudes and Perceptions
- Operational and Financial issues
- Monitoring & Supervision
- Community Mobilization

Page 52 of 62 Olia file 5

Practical/ Practice Component

Suggested Activities: List of activities to be undertaken:

- Identify plastic and e-waste in and around the institution and suggest innovative technologies to minimize wastage.
- Identify events/fests that generate maximum waste and ways to minimize it.
- Visit canteen/shops and track the lifecycle of wet/dry waste in and around the institution and document the findings in the form of a Project Report.
- Conduct interviews of stakeholders to understand the level of awareness.
- Conduct a Clean Audit of the Institution and identify areas for action.
- Conduct cleanliness drives.
- Organise Swachhata Pakhwada meetings, rallies, and mobilization camps within the identified
- communities.
- Students may participate in the Swachh Bharat Internship programme.
- If required, students can share their experiences in the form of a Project Report.
- Any other Practical/Practice as decided from time to time

Vedic Mathematics Syllabus

Course Objectives:

• Foster the love for mathematics by creating a positive attitude through Vedic and Ancient Bhartiya (Indian) Mathematics

• To generate awareness among the younger generations about contributions of Great Bhartiya (Indian) Mathematicians in the various fields of Mathematics.

•To promote Vedic mathematics in NEP 2020 under Bhartiya Gyan Parampara (IKS)

- To instill pride in the Bhartiya (Indian) Knowledge System.
- To develop conceptual knowledge of mathematical concepts

Learning Outcomes:

After completion of the course, students shall be able to

- Think Logically.
- High Speed Calculation
- · Find mathematical solution of algebraic expressions.
- Appreciate the Mathematical advancements of Ancient Bharat.
- Researches in Vedic Mathematics

Credit - 1

- 1. Contribution of Bhartiya (Indian) Mathematician
 - Aryabhat
 - Bhaskaracharya
 - Varahmihir
 - Mahaviracharya
 - Sridharacharya
 - Srinivas Ramanujan
 - Bharti Krishna Tirth

2. Introduction of Vedic Mathematics by Swami Bharti Krishna Tirth

- 16 Sutra
- 13 Upsutra
- 3. High Speed Calculation
 - Addition and Subtraction
 - Multiplication
 - Division
 - Square and square root
 - Cube and cube root
 - Vinculum and its application.
 - Mixed Operations

Rlinday 7600 02/08/2024 A2M Aa14:02.08.2024 76000 02/08/2024

Credit - 2

4. Easy Solution of Algebra by Vedic Maths.

- Multiplication and Division of Algebraic Expression
- Factorisation
- Partial Fraction
- Linear Equations
- Quadratic Equation
- 5. Meru Prastaar
- 6. Vedic Geometry
 - Bodhayana Theorem
 - Bodhayana Number
 - Sum and Difference of Bodhayana number
 - Value of √2 in Bodhayana Sulbha Sutra.
- 7. Bhartiya Panchang
 - Parts of Panchang
 - Calculation of Time
 - Bhartiya Units for time calculation.
 - National Panchang

Course Title - Yoga: Philosophy and Practice

Course Objectives

- To learn the fundamentals of Yoga for harmonising the body, mind and emotions. •
- To demonstrate the value and the practice of holistic living. ٠
- To value the heritage of Yoga for self and society.

Learning Outcomes

- Understanding ways to harmonise the body and mind through Yoga. 0
- Disciplining the mind through practicing Yoga.
- Understanding of consciousness through practical training. •

Syllabus of Yoga: Philosophy and Practice

Unit I: Yoga: Asana, Prāņāyāma and Dhyana

- History of Yoga ٠
- Significance of Asana
- Effect of Pranayama •
- . Importance of Dhyana

Unit II: Patanjali's Yogasūtra and Chakra

- Patanjali's Yogasūtra: a summary •
- First sutra
- Second sutra
- Chakras (psychic centres)

Unit III: Understanding Asana and Pranayama

- Asana: the basics
- SuryaNamaskara
- Nadishodhana Pranavama

Practical/ Practice Component

- Surya Namaskar
- Selected Asana
- Praņayama
- Relaxation exercises for the eyes (7 steps) neck (4 steps)
- Concentration on Bhrumadhya

Staff h Page 56 of 62

and

- Project Work (effect of everyday concentration on breath for 15 minutes: reflections to be compiled in the form of a Project report.
- Any other Practical/Practice as decided from time to time

Essential Readings

- Asanas, Prāņāyāmaand Mudra Bandh, Swami SatyanandaSaraswati, Yoga Publications Trust, Munger, Bihar, India, 2004.
- Patanjali Yogasutras, Commentary by Swami Vivekanand, Rajyoga

Suggested Readings

- PatanjalYog Pradeep- Swami OmanandSaraswati, Gita Press, Gorakhpur, 2013.
- Science of Pranayama-Swami Sivananda, Edition by David De Angellis, 2019, All Rights Reserved.
- Udayveer Shastri Granthavali,4, Patanjal-Yoga Darshanam, Udayavir Shastri, Govindram Hasanand, Delhi 6.

Course Title - भारतीय भक्ति परंपरा और मानव मूल्य

COURSE OBJECTIVES

• भारतीय भक्ति की महान परंपरा, प्राचीनता और इसके अखिल भारतीय स्वरूप सेछात्रों का परिचय कराना

भारतीय भक्ति परंपरा के माध्यम सेछात्रों मेंमानव मूल्यों और गुणों को जगाकर उनका चारित्रिक विकास करना और एक अच्छे मनुष्य का निर्माण करना ।
छात्रों को भारतीय नैतिक, सांस्कृतिक और सामाजिक मल्ूयों के प्रति जागरूक करना ।

 भारतीय भक्ति परंपरा के माध्यम सेराष्ट्रीयता और अखिल भारतीयता की भावना जागत करना।

LEARNING OUTCOMES

 भारतीय भक्ति परंपरा के माध्यम सेछात्रों मेंमानव मल्ूयों और गुणों को विकास होगा और वेएक अच्छेऔर चरित्रवान मनष्ुय बन संकेंगे।

 भारतीय भक्ति परंपरा के सांस्कृतिक और सामाजिक पक्षों की जानकारी हो सकेगी।
 भक्ति की प्राचीनता और अखिल भारतीय स्वरूप की जानकारी सेराष्ट्रीयता और अखिल भारतीयता की भावना जागतृ और मजबत् होगी।

• प्रमखु भक्त कवियों का परिचय और उनके विचारों की जानकारी हो सकेगी।

Unit I: भारतीय भक्ति परंपरा Bin El

Page 58 of 62

अक्तिः अर्थऔर अवधारणा भक्ति के विभिन्न संप्रदाय और सिद्धांत भारत की सांस्कृतिक एकता और भक्ति भक्ति का अखिल भारतीय स्वरूप

Unit II: भारत के कुछ प्रमखु भक्त और उनके विचार

संत तिरुवल्लवर ु , आण्डाल, अक्कमहादेवी, ललखद , मीराबाई, तलसीदास ु , कबीरदास, रैदास, गरुु नानक, सरदास ू , जायसी, तकाराम ु , नामदेव, नरसिंह मेहता, वेमना, कं चन ु , नम्बियार, चैतन्य महाप्रभ, ुचंडीदास, सारला दास, शंकरदेव

Unit III: मानव मल्ूय और भक

मानव मल्ूय का अर्थ चयनित भक्त कवियों की जीवन मल्ूयपरक कविताएँ

Practical/ Practice Component

• पाठ्यक्रम मेंउल्लिखित कवियों मेंसेकिसी एक कवि की रचनाओंमेंविभिन्न मानव मल्ूयों केआधार पर प्रोजेक्ट

वर्तमान समय मेंभक्ति की प्रासंगिकता को समझना; सर्वे और साक्षात्कार पद्धति केआधार घर.

जीवन मॅमानव मल्ूयों के प्रतिपालन पर सर्वे और साक्षात्कार केआधार पर एक रिपोर्टबनाना.

 उल्लिखित कवियों मेंसेकिसी एक कवि सेसंबंधित किसी मठ, आश्रम या मंदिर आदि, अथवा कोई फिल्म/ डॉक्यमु ेंट्री केआधार पर रिपोर्टबनाना.

• आवश्यक हो, तो छात्र प्रोजेक्ट रिपोर्ट के रूप में अपने अनभव साझा कर ु ें

Course Title - सृजनात्मक लेखन के आयाम

पाठ्यक्रम का उद्देश्य (Course Objectives):

1. सृजनात्मक और भाषायी कौशल का संक्षिप्त परिचय कराना

2. विचारों का प्रभावी प्रस्तति करण करना

3. सृजनात्मक चिंतन और लेखन क्षमता को विकसित करना

4. मीडिया लेखन की समझ विकसित करना पाठ्यक्रम अध्ययन के परिणाम

(Learning Outcomes):

19 . 10 . 12

1. सृजनात्मक चिंतन और लेखन क्षमता का विकास हो सके गा

2. लेखन और मौखिक अभिव्यक्ति की प्रभावी क्षमता विकसित हो सके गी

3. मीडिया लेखन की समझ विकसित होगी

4. विद्यार्थी में अपने परिवेश, समाज तथा राष्ट्र के प्रति संवेदनशीलता का विकास होगा

Syllabus: सृजनात्मक लेखन के आयाम

इकाई - 1 (Unit I): सृजनात्मक लेखन • सृजनात्मक लेखन: अर्थ, स्वरूप और बोध • सृजनात्मक लेखन और परिवेश • सृजनात्मक लेखन और व्यक्तित्व निर्माण इकाई - 2 (Unit II): सृजनात्मक लेखन : भाषिक संदर्भ • भाव और विचार का भाषा में रूपान्तरण • साहित्यिक भाषा की विभिन्न छतियाँ • पिंट तथा इलेक्ट्रोनिक माध्यमों की भाषा का अंतर इकाई 3 (Unit III): सृजनात्मक लेखन - विविध आयाम Reconstruction of 62 • कविता, गीत, लघू कथा

1 103 21

- हास्य व्यंग्य लेखन,
- पल्लवन, संक्षेपण, अनूच्छेद

Practical/ Practice Component

- कक्षा में प्रत्येक विद्यार्थी द्वारा 'मेरी पहली रचना' शीर्षक से किसी भी विधा में लेखन
- किसी भी साहित्यिक रचना का भाषा की दृष्टि से विक्षेषण
- इकाई- 3 में उल्लिखित विधाओं में विद्यार्थियों द्वारा लेखन एवं सामहि क चर्चा

• प्रत्येक इकाई से संबन्धित परियोजना कार्य: ० समसामयिक विषयों पर किसी भी विधा में लेखन ~ बदलते जीवन मल्ूय, महामारी, राष्ट्र निर्माण में छात्र की भमिू का, यवाओं के क ु र्तव्य, पर्यावरण संरक्षण, लोकतन्त्र में मीडिया की भमिू का, ऑनलाइन शॉपिंग अथवा अन्य समसामयिक विषय ० किसी उत्सव, मेला, प्रदर्शनी, संग्रहालय और किसी दर्शनीय स्थल का भ्रमण तथा उस पर परियोजना कार्य

 प्रिंट माध्यम के खेल, राजनीति, आर्थिक और फिल्म जगत आदि से जड़ी साम ु ग्री का भाषा की दृष्टि से विवेचन

- इलेक्ट्रोनिक माध्यम के समाचार, धारावाहिक, विज्ञापन आदि का भाषा की दृष्टि से विवेचन
- आवश्यक हो, तो छात्र प्रोजेक्ट रिपोर्ट के रूप में अपने अनभव साझा कर ु ें
- Any other Practical/Practice as decided from time to time अनिवार्य पाठ

Title of the Program: India The Mother of Democracy

Credits: 03

(Value added course)

Course Curriculum: Undergraduate level course for the Universities of Bihar

Objective of the Course : For long it has been perceived by certain intellectual trajectory that 'Democracy' is a by-product of Occidental Philosophy. On the contrary, Democratic ethics have been an integral part of State functioning in Bharat, i.e. India, since time immemorial. Multiple inscriptions and historical records related to our Democratic values are testimony to this. The concept of 'Vasudhaiva Kutumbakam' amply conveys the message of 'Democracy' through Bharatiya Philosophy only. Students at graduate level should be aware of the fact that 'Democracy' as an ethic is deep rooted in Bharatiya practices.

ENGLISH COMMUNICATION

Course Learning Objectives:

The purpose of this course is to introduce students to the theory, fundamentals and tools of communication and to develop in them vital communication skills which should be integral to personal, social and professional interactions. The present course hopes to address some of the aspects of effective communication skills through an interactive mode of teaching-learning process. The various dimensions of communication skills that will be focused in the course include language of communication, speaking skills such as personal communication, social interactions and communication in professional situations such as interviews, group discussions and office environments, important reading skills as well as writing skills such as report writing, note taking etc.

Syllabus:

1. Introduction:

- Theory of Communication
- Types and modes of Communication
- Effective Communication/ Mis- Communication
- Barriers and Strategies

2. Language of Communication:

- Verbal and Non-verbal (Spoken and Written)
- Personal, Social and Business
- Intra-personal, Inter-personal and Group communication

3. Speaking Skills

- Dialogue
- Group Discussion
- Interview
- Public Speech
- Role Play/Extempore Presentations

- Surs

Page 2 of 13

- 4. Reading and Understanding
 - Close Reading ٠
 - Comprehension, Analysis and Interpretation

Summary Paraphrasing Translation (from Indian language to English and vice-versa) Literary/Knowledge Texts

5. Writing Skills

- Making notes
- Documenting
- **Report Writing**
- Writing Letters job applications, CV and Resume
- Academic Writing
- Writing a Proposal

Readings:

- 1. Fluency in English Part II, Oxford University Press, 2006.
- 2. Business English, Pearson, 2008.
- 3. Language, Literature and Creativity, Orient Blackswan, 2013.
- 4. 4. Language through Literature (forthcoming) ed. Dr. Gauri Mishra, Dr Ranjana Kaul, Dr Brati Biswas

REMEDIAL ENGLISH

Learning Objectives:

English language skills - reading, writing, speaking and listening - are fundamental in constructing knowledge in all academic disciplines, succeeding in the world of work, and making sense of everyday life. The standards and benchmarks enlisted in this syllabus can help students adapt to the continually changing world of communication and develop a global outlook.

Through this course the students will be able to acquire the following set of literacy standards/ skills and implement them as working strategies: 1. Will engage in and gain basic proficiency in reading and comprehension 2. Will speak to a) inform b) describe c) explain d) persuade. The style and vocabulary will be at the beginners' level. 3. Make use of the grammar, syntax and tone of speech at the preliminary level. 4. Will read a variety of materials to facilitate comprehension. 5. Will understand the elements of grammar and its functions in a text. 6. Employ reading strategies such as scanning, selecting and summarising at the preliminary level. 7. Learn types of sentences statement, question, exclamation, affirmative and negative. 8. Will gain and demonstrate basic competence in speaking, reading and writing.

an

Efz how w

Page 3 of 13

Syllabus:

READING

- 1. Simple comprehension texts of description, narration, information, explanation and persuasion based on higher order thinking skills.
- 2. Contextualised grammar focus.
- 3. Vocabulary basic synonyms and antonyms.

GRAMMAR

- 1. Parts of speech
- 2. Transformation of parts of speech
- 3. Nouns gender and number; Countable and uncountable nouns
- 4. Verbs and tenses
- 5. Use of auxiliaries
- 6. Agreement of verb with subject
- 7. Use of articles
- 8. Use of adjectives and adverbs
- 9. Use of selected prepositions
- 10. Affirmative, negative and interrogative sentences
- 11. Question tags
- 12. Phrasal verbs
- 13. Direct and indirect narration

ENGLISH: ACADEMIC WRITING

Learning Objectives:

The syllabus aims to develop a critical and informed response to a range of texts/extracts, the skills of summarization and condensation, the skills of comprehension, the skills of analysis, synthesis and evaluation of content, correct usage and application of vocabulary.

Syllabus:

1. Features of Argumentative/Persuasive Writing

Reading and General Understanding

Writing practice: identifying arguments, counterarguments, non- arguments refuting arguments, style of persuasion, organizing an argumentative essay Grammar Focus: Use of conjunctions as connectors, conditionals, noun clauses

2. Features of Comparison and Contrast Essay

Reading and General Understanding

Writing Practice: developing a comparison-contrast structure Grammar Focus: Clauses for comparison, contrast, concession, transitions

3. Features of Literary Analysis

Reading and General Understanding

hum M

Page 4 of 13

Writing Practice: plot devices, themes, symbols, figures of speech, tone, mood, style, organizing discourse structure

Grammar Focus: Conditional Sentences

4. Planning an Academic Essay

Writing Practice: discourse structure, essay-outline, paragraph-sequence, using citation.

Semester – II (AEC- 2)

Science	Social Science/Arts	Commerce
Environmental Science	Environmental Science	Environmental Science

Unit 1: Introduction to environmental studies

- Multidisciplinary nature of environmental studies
- Scope and importance; Concept of sustainability and sustainable development.

Unit 2: Ecosystems

- What is an ecosystem?
- Structure and function of ecosystem;
- Energy flow in an ecosystem: food chains, food webs and ecological succession.
- Case studies of the following ecosystems:
 - a) Forest ecosystem
 - b) Grassland ecosystem

c) Desert ecosystem

d) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries)

Unit 3: Natural Resources: Renewable and Non - renewable Resources

- Land resources and land-use change; Land degradation, soil erosion and desertification.
- · Deforestation: Causes and impacts due to mining, dam building on environment, forests,
- biodiversity and tribal populations.
- Water: Use and over exploitation of surface and ground water, floods, droughts, confl - icts
- Over water (international & inter-state), Dams benefits and problems.
- Food resources: World food problems, changes caused by agriculture and over-

grazing, effects

- of modern agriculture, fertilizer-pesticide problems, waterlogging, salinity.
- • Energy resources: Renewable and non-

renewable energy sources, use of alternate energy

sources, growing energy needs, case studies

Unit 4: Biodiversity and Conservation

- Levels of biological diversity: genetic, species and ecosystem diversity; Bio-geographic zones
- of India; Biodiversity patterns and global biodiversity hotspots.
- India as a mega-biodiversity nation; Endangered and endemic species of India, threats to
- · biodiversity: Habitat loss, poaching of wildlife, man-wildlife conflicts, biological invasions.
- Conservation of biodiversity: In situandEx situconservation of biodiversity.
- Ecosystem and biodiversity services: Ecological, economic, social, ethical, aesthetic and
 - Informational value.

En bur

Page 6 of 13

Unit 5: Environmental Pollution

- Environmental pollution: types, causes, effects and controls; Air, water, soil and noise
- pollution
- Nuclear hazards and human health risks
- Solid waste management: Control measures of urban and industrial waste.
- Pollution case studies

Unit 6: Environmental Policies & Practices

- Climate change, global warming, ozone layer depletion, acid rain and impacts on human
- communities and agriculture
- Environment Laws: Environment Protection Act; Air (Prevention & Control of Pollution)
- Act; Water (Prevention and control of Pollution) Act; Wildlife Protection Act; Forest
- Conservation Act. International agreements: Montreal and Kyoto protocols and Convention
- on Biological Diversity (CBD).
- Nature reserves, tribal populations and rights, and human wildlife conflicts in Indian context.

Unit7: Human Communities and the Environment

- Human population growth: Impacts on environment, human health and welfare. Resettlement and rehabilitation of project affected persons; case studies.
- Disaster management: floods, earthquake, cyclones and landslides.
- Water conservation, rain water harvesting, watershed management.
- Wasteland reclamation.
- Environmental movements: Chipko, Silent valley, Bishnois of Rajasthan. •
- Environmental ethics: Role of Indian and other religions and cultures in environmental conservation.
- 1. Visit to local polluted site (any one)
 - Urban: Identify the major sources of air pollution in a city or town of North Bengal region. a)
 - Rural: Analyse the major sources of organic pollution in villages and adjoining agricultural b) fields.
 - c) Industry: Prepare a list of the large and medium industries in and around your college are and the probable pollutants they may produce.
- 2. Study of flora and fauna (any one)
 - a) Prepare a list of the economic plants available in the college block.
 - b) List the birds sighted and found nesting at the college campus and its surroundings with the season of their occurrence.
 - c) Record insects associated with any common crop/grassland/tree of the college area with an idea of their habitat.
- 3. Visit to local area to document environmental assets (any one):

m

Sun h

Page 7 of 13

- a) Trip to any riverine system of Terai or the dooars: comment on the direction, volume and quality of water, flowing as observed.
- b) Record the nature of vegetation/forest type/land use pattern at the site of visit.
- c) Analyse the cause of deforestation and landslide on hill slope, if sighted.

4. Study of ecosystems. (any one)

- a) Pond: water parameters turbidity, pH, producers (phyto and zooplanktons) and related consumers (fishes and birds).
- b) <u>Grassland on hill slope</u>: producers (plants), insects, consumers (birds, mammals, reptiles etc.)
- c) Forest: practical concept of forest type, stories, dominant trees and sub dominant vegetation, observed and reported major herbivores and carnivores in a forest ecosystem.
- 5. Submission of a field work (covering the above practical works undertaken)

Semester - III (AEC-3)

Science	Social Science/Arts	Commerce
 Course on Disaster Risk Management 	 Course on Disaster Risk Management 	Course on Disaster Risk Management

Learning Objectives:

The course is intended to provide a general concept in the dimensions of disasters caused by nature beyond the human control as well as the disasters and environmental hazards induced by human activities with emphasis on disaster preparedness, response and recovery.

Introduction on Disaster Different Types of Disaster :

A) Natural Disaster: such as Flood, Cyclone, Earthquakes, Landslides etc.

B) Man-made Disaster: such as Fire, Industrial Pollution, Nuclear Disaster, Biological Disasters, Accidents (Air, Sea, Rail & Road), Structural failures(Building and Bridge), War & Terrorism etc. Causes, effects and practical examples for all disasters.

Risk and Vulnerability Analysis :

- 1. Risk : Its concept and analysis
- 2. Risk Reduction
- 3. Vulnerability : Its concept and analysis
- 4. Strategic Development for Vulnerability Reduction

Disaster Preparedness and Response Preparedness:

- 1. Disaster Preparedness: Concept and Nature
- 2. Disaster Preparedness Plan
- 3. Prediction, Early Warnings and Safety Measures of Disaster.
- 4. Role of Information, Education, Communication, and Training,
- 5. Role of Government, International and NGO Bodies.
- 6. Role of IT in Disaster Preparedness
- 7. Role of Engineers on Disaster Management.

Response

- 1. Disaster Response: Introduction
- 2. Disaster Response Plan
- 3. Communication, Participation, and Activation of Emergency Preparedness Plan

Semester – IV (AEC- 4)

Science	Social Science/Arts	Commerce
Course on NCC	Course on NCC	Course on NCC

Learning Objectives:

The course aims to :

(a) Provide knowledge about the history of NCC, its organization, and incentives of

- NCC for their career prospects.
- (b) Inculcate spirit of duty and conduct in NCC cadets.
- (c) Provide understanding about different NCC camps and their conducts.
- (d) Provide understanding about the concept of national integration and its importance.
- (e) Provide understanding about the concept of self-awareness and emotional intelligence.
- (f) Provide understanding about the concept of critical & creative thinking.
- (g) Provide understanding about the process of decision making & problem solving.
- (h) Provide understanding about the concept of team and its functioning.
- (i) Provide understanding about the concept and importance of Social service.

Learning Outcomes:

After completing this course, the cadets will be able to: -

- (a) Understand the basic concept of NCC.
- (b) Respect the diversity of different Indian culture.
- (c) Practice togethemess, teamwork and empathy in all walks of their life.
- (d) Do their own self-analysis and will work out to overcome their weakness for better performance in all aspects of life.
- (e) Critically think and analyse.

Medium of Instruction: Hindi and English

Syllabus of NCC-I

Unit I: NCC General 4 Lectures

Subtopics:

- Aims, Objectives and Organization of NCC
- Incentives for NCC Cadets
- Duties of NCC Cadets
- NCC Camps: Types and Conduct

Unit II: National Integration

Subtopics:

- National Integration: Importance and Necessity
- Factors affecting National Integration
- Unity in Diversity
- Threats to National Security

Unit III: Personality Development

Subtopics:

- Factors
- Self-Awareness
- Empathy
- Critical and Creative Thinking
- Decision Making and Problem Solving

Unit IV: Social Service and Community Development

Subtopics:

- Basics of Social Service
- Rural Development Programmes
- NGO's
- Contribution of Youth

Practical/Practice Component

- Drill
- Field Craft & Battle Craft
- Map Reading
- Weapon Training
- Social Service & Community Development
- Any other Practical/Practice as decided from time to time
