4. Voluntary Blood Donation Camp

Under the aegis of IQAC, NSS, Patna Science College has organized Voluntary Blood Donation Camp on 26.09.2023. The campaign endeavors to generate awareness regarding prevention of HIV, promotion of related services and reduce stigma and discrimination related to HIV. During the campaign, teachers and students from various departments. The main feature of the camp were to motivate students to donate their blood. By donating blood, one not only helps someone in need but also saves a precious life. The Blood Donation camp turned out to be a Huge Success as over the span of 4-5 hours, the Gymnasium hall witnessed an attendance of over 50 volunteers. The Blood Donation camp has definitely sent out a positive message all across the State and perhaps the country as several camps were organized throughout the nation.

1.Outreach Program Organized in Patna Science College in Collaboration with UISEF

Patna Science College organized an outreach program in collaboration with the United State India Educational Foundation (UISEF) on 09.02.2023 to inform and motivate participants about various Teachers' Fellowship Programs including the prestigious Fulbright Fellowship opportunities. The Principal, Patna Science College, Prof. R. K. Mandal, addressed the event and encouraged the participants. Faculty members and research scholars from several disciplines interacted with the resource persons, Ms. Pratibha Nair, Coordinator, USIEF, and Mr. Sumanta Basu, the Regional Officer for Eastern India. The event created an awareness to increase the academic excellence of the Patna Science College.

2. College Outreach Program on Start-up and Incubation

On November 23, 2022, a one-day event was held in the Physics Department of Patna Science College as part of the Bihar Industries start-up program. The purpose of this program was to enlighten the students about entrepreneurship, incubation, and startup processes. The program was launched by Prof. Girish Kumar Choudhary, the honourable vice chancellor of Patna University. Together, the Vice Chancellor of Patna University, Mr. Sandeep Poundrik, Principal Secretary of the Industries Department, Prof. Rajkishore Prasad, and the Principal of Patna Science College ignited the sacred lamp and then Prof. Rajkishore Prasad gave a welcome address. The students were informed by Prof.

Rajkishore Prasad on the goal and fundamental ideas of start-ups. Mr. Amir Subhani, Chief Secretary of the Government of Bihar, attended the event as the chief guest, and Prof. Girish Kumar Choudhary, Vice Chancellor of Patna University, attended as a special guest. The vice chancellor of Patna University, Prof. Girish Kumar Chaudhary, addressed the program participants and encouraged them to launch their own start-up plans and to take advantage of the opportunity to receive support from the Industries Department of the Government of Bihar for the establishment of a new incubation center or startup hub at Patna University. The students heard in-depth explanations of incubation and start-ups from Mr. Sandeep Kumar Poundrik, Principal Secretary, Industries Department, Bihar Government. He also told them of the department's efforts and the triumphs of start-ups in Bihar. Many teachers and students apart from successful start-up entrepreneurs-cum-unicorns from Bihar were present on this occasion. Mr. Rahul Kumar and Mr. Abhay Kumar, students of Patna Science College's B.Sc. in Environmental Science program, received praise for their innovative start-up ideas.

3. An outreach program with Environment and Forest change department, Government of Bihar

An interdepartmental essay competition is organised by Patna Science College, to select students to represent the institute at an event organised by Department of forest and climate change, Ministry of Environment, Government of Bihar in collaboration with Sanjay Gandhi national Park, Patna, to celebrate biodiversity day. 13 students participated, in which four got selected to represent in essay competition. Remarkably two students of Patna Science College won in the competition and secured positions.

1. *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl a is essential for the light-dependent reactions of photosynthesis, where it converts light energy into chemical energy in the form of ATP and NADPH.
